Article 1

Objectives

The objectives of this Agreement are:

(a) Contributing to the reduction and eventual eradication of poverty through the establishment of a trade partnership consistent with the objective of sustainable development, and the Sustainable Development Goals;

(b) Promoting regional integration, economic cooperation and good governance thus establishing and implementing an effective, predictable and transparent regulatory framework for trade and investment between the Parties and in the CARIFORUM region;

(c) Promoting the gradual integration of the CARIFORUM States into the world economy, in accordance with their political choices and development priorities;

(d) Improving the CARIFORUM States' capacity in trade policy and trade related issues;

(e) Supporting the conditions for increasing investment and private sector initiative and enhancing supply capacity, competitiveness and economic growth in the CARIFORUM region;

(f) Strengthening the existing relations between the Parties on the basis of solidarity and mutual interest. To this end, taking into account their respective levels of development and consistent with WTO obligations, the Agreement shall enhance commercial and economic relations, support a new trading dynamic between the Parties by means of the progressive, asymmetrical liberalisation of trade between them and reinforce, broaden and deepen cooperation in all areas relevant to trade and investment.

Article 2

Principles

1. This Agreement is based on the following fundamental principles:

(a) equality of the partners and ownership of the development strategies: for the purposes of implementing the objectives of the partnership, the CARIFORUM States shall determine the development strategies for their economies and societies in all sovereignty and with due regard for respect for human rights, democratic principles and the rule of law; the partnership shall encourage ownership of the development strategies by the countries and populations concerned; UK development partners shall align their programmes with these strategies;

(b) participation: apart from central government as the main partner, the partnership shall be open to parliaments and local authorities in CARIFORUM States and different kinds of other actors in order to encourage the integration of all sections of society, including the private sector and civil society organisations, into the mainstream of political, economic and social life;

(c) the pivotal role of dialogue and the fulfilment of mutual obligations and accountability: the obligations assumed by the Parties in the framework of their dialogue shall be central to their partnership and cooperation relations; the Parties shall work closely together in determining and implementing the necessary processes of donor alignment and harmonization, with a view to securing a key role for the CARIFORUM States in these processes;

(d) differentiation and regionalisation: cooperation arrangements and priorities shall vary according to a partner's level of development, its needs, its performance and its long term development strategy. Special treatment shall be given to Least-Developed Countries party to this Agreement. The vulnerability of island countries shall be taken into account. Particular emphasis shall be put on regional integration.

2. Respect for human rights, democratic principles and the rule of law, which shall underpin the domestic and international policies of the Signatory CARIFORUM States and the United Kingdom, constitute the essential elements of the Agreement. Good governance, which shall also underpin the domestic and international policies of the Signatory CARIFORUM States and the United Kingdom, constitutes the fundamental element of the Agreement. Hereinafter, the elements set out in this paragraph shall be referred to as the Essential Elements and Fundamental Elements of this Agreement respectively.

Article 3

Sustainable development

1. The Parties reaffirm that the objective of sustainable development is to be applied and integrated at every level of their economic partnership, in fulfilment of the overarching commitments set out in Articles 1 and 2 of this Agreement and especially the general commitment to reducing and eventually eradicating poverty in a way that is consistent with the objectives of sustainable development.

2. The Parties understand this objective to apply in the case of this Agreement as a commitment that:

(a) the application of this Agreement shall fully take into account the human, cultural, economic, social, health and environmental best interests of their respective population and of future generations;

(b) decision-taking methods shall embrace the fundamental principles of ownership, participation and dialogue.

3. As a result the Parties agree to work cooperatively towards the realisation of a sustainable development centred on the human person, who is the main beneficiary of development.

5. The Parties agree that their partnership builds upon and aims at deepening regional integration and undertake to cooperate to develop it further, taking into account the Parties' levels of development, needs, geographical realities and sustainable development strategies, as well as the priorities that the CARIFORUM States have set for themselves and the obligations enshrined in the existing regional integration agreements identified in paragraph 3.

In this context, supporting the implementation of this Agreement shall be one of the priorities.

4. Commensurate with their respective roles and responsibilities, the United Kingdom and the Signatory CARIFORUM States shall take all measures necessary to ensure the effective mobilisation, provision and utilisation of resources aimed at facilitating the development cooperation activities provided for in this Agreement.

5. The United Kingdom undertakes to support, by means of its development policies and instruments, development cooperation activities for regional economic cooperation and integration and for the implementation of this Agreement in CARIFORUM States and at the regional level, in accordance with the complementarity and aid effectiveness principles. Article 9

Scope

The provisions of this Chapter shall apply to all goods originating in the United Kingdom and in any CARIFORUM State ([1]).

Article 10

Rules of origin

For the purposes of this Chapter, 'originating' means qualifying under the rules of origin set out in Protocol I. Within the first five years of the entry into force of this Agreement the Parties shall review the provisions of Protocol I, with a view to further simplifying the concepts and methods used for the purpose of determining origin in the light of the development needs of the CARIFORUM States. In such review, the Parties shall take into account the development of technologies, production processes and all other factors which may require modifications to the provisions of Protocol I. Any such modifications shall be effected by a decision of the Joint CARIFORUM-UK Council.

Article 11

Customs duty

A customs duty shall include any duty or charge of any kind, including any form of surtax or surcharge, imposed in connection with the importation or exportation of goods, but shall not include any:

(a) internal taxes or other internal charges imposed in accordance with Article 27;

(b) antidumping, countervailing or safeguard measures applied in accordance with Chapter 2 of this Title;

(c) fees or other charges imposed in accordance with Article 13.

Article 12

Classification of goods

The classification of goods covered by this Agreement shall be that set out in the Harmonised Commodity Description and Coding System ('HS') in accordance with the rules of classification applicable thereto. The Special Committee on Customs Cooperation and Trade Facilitation as provided for under Article 36 shall address any issue related to the classification of goods which arises in the operation of this Agreement.

Article 13

Fees and other charges

Fees and other charges as referred to in Article 11 shall be limited in amount to the approximate cost of services rendered and shall not represent an indirect protection for domestic products or a taxation of imports or exports for fiscal purposes. They shall not exceed the real value of the service rendered. Fees and charges shall not be imposed for consular services.

Article 14

Elimination of customs duties on originating exports

Customs duties on exports shall not be applicable to goods originating in the CARIFORUM States and imported into the United Kingdom and vice versa.

Article 15

Customs duties on imports of products originating in the CARIFORUM States

Products originating in the CARIFORUM States shall be imported into the United Kingdom free of customs duties except for the products indicated, and under the conditions defined, in Annex II.

[1] Except where expressly provided, the terms 'goods' and 'product' shall have the same meaning.

1502—*Continued*

Article 16

Customs duties on imports of products originating in the United Kingdom

1. Products originating in the United Kingdom shall not, on their importation into the CARIFORUM States, be subject to customs duties higher than those indicated in Annex III.

2. Products originating in the United Kingdom shall, on their importation into the CARIFORUM States, be exempt from all customs duties within the meaning of Article 11 other than those listed in Annex III no later than the date of entry into force of this Agreement or if this Agreement is provisionally applied, the date such provisional application takes effect.

3. In the event of serious difficulties in respect of imports of a given product, the schedule of customs duty reductions and eliminations may be reviewed by the CARIFORUM-UK Tradeand Development Committee by common accord with a view to possibly modifying the time schedule for reduction or elimination. Any such modification shall not lead to the time periods in the schedule for which the review has been requested being extended in respect of the product concerned beyond the maximum transitional period for duty reduction or elimination for that product as provided for in Annex III. If the CARIFORUM-UK Trade and Development Committee has not taken a decision within 30 days of an application to review the timetable, the CARIFORUM States may suspend the timetable provisionally for a period that may not exceed one year.

Article 17

Modification of tariff commitments

In the light of the special development needs of Antigua and Barbuda, Belize, the Commonwealth of Dominica, Grenada, the Republic of Guyana, the Republic of Haiti, Saint Christopher and Nevis, Saint Lucia, and Saint Vincent and the Grenadines, the Parties may decide in the CARIFORUM-UK Trade and Development Committee to modify the level of customs duties stipulated in Annex III, which may be applied to a product originating in the United Kingdom upon its importation into the CARIFORUM States. The Parties shall ensure that any such modification does not result in an incompatibility of this Agreement with the requirements of Article XXIV of the General Agreement on Tariffs and Trade ('GATT') 1994. The Parties may also decide simultaneously to adjust the customs duty commitments stipulated in Annex III and relating to other products imported from the United Kingdom, as appropriate.

Article 18

Movement of goods

The Parties recognise the goal of having customs duties levied only once on originating goods imported into the United Kingdom or into the Signatory CARIFORUM States. Pending the establishment of the necessary arrangements for achieving this goal, the Signatory CARIFORUM States shall exercise their best endeavours in this regard. The United Kingdom shall provide the technical assistance necessary for the achievement of this goal.

Article 19

More favourable treatment resulting from free trade agreements

1. With respect to matters covered by this Chapter, the United Kingdom shall accord to the CARIFORUM States any more favourable treatment applicable as a result of the United Kingdom becoming party to a free trade agreement with third parties after the signature of this Agreement.

2. With respect to matters covered by this Chapter, the CARIFORUM States or any Signatory CARIFORUM State shall accord to the United Kingdom any more favourable treatment applicable as a result of the CARIFORUM States or any Signatory CARIFORUM State becoming party to a free trade agreement with any major trading economy after the signature of this Agreement.

3. The provisions of this Chapter shall not be so construed as to oblige the United Kingdom or any Signatory CARIFORUM State to extend reciprocally any preferential treatment applicable as a result of the United Kingdom or any Signatory CARIFORUM State being party to a free trade agreement with third parties on the date of signature of this Agreement.

4. For the purposes of this Article, 'major trading economy' means any developed country, or any country or territory accounting for a share of world merchandise exports above 1 % in the year before the entry into force of the free trade agreement referred to in paragraph 2, or any group of countries acting individually, collectively or through a free trade agreement accounting collectively for a share of world merchandise exports above one and a half 1,5 % in the year before the entry into force of the free trade agreement referred to in paragraph 2(1).

5. Where any Signatory CARIFORUM State becomes party to a free trade agreement with a third party referred to in paragraph 2 and such a free trade agreement provides for more favourable treatment to such third party than that granted by the Signatory CARIFORUM State to the United Kingdom pursuant to this Agreement, the Parties shall enter into consultations. The Parties may decide whether the concerned Signatory CARIFORUM State may deny the more favourable treatment contained in the free trade agreement to the United Kingdom. The Joint CARIFORUM-UK Council may adopt any necessary measures to adjust the provisions of this Agreement.

Article 20

Special provisions on administrative cooperation

1. The Parties agree that administrative cooperation is essential for the implementation and the control of the preferential treatment granted under this Title and underline their commitment to combat irregularities and fraud in customs and related matters.

2. Where a Party or a Signatory CARIFORUM State has made a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud, the Party or Signatory CARIFORUM State concerned may temporarily suspend the relevant preferential treatment of the product(s) concerned in accordance with this Article.

[1] For this calculation official data by the WTO on leading exporters in world merchandise trade (excluding intra-European Union trade) shall be used.

3. For the purpose of this Article a failure to provide administrative cooperation shall mean, *inter alia*:

(a) a repeated failure to respect the obligations to verify the originating status of the product(s) concerned;

(b) a repeated refusal or undue delay in carrying out and/or communicating the results of subsequent verification of the proof of origin;

(c) a repeated refusal or undue delay in obtaining authorisation to conduct administrative cooperation missions to verify the authenticity of documents or accuracy of information relevant to the granting of the preferential treatment in question

For the purpose of this Article a finding of irregularities or fraud may be made, *inter alia*, where there is a rapid increase, without satisfactory explanation, in imports of goods exceeding the usual level of production and export capacity of the other Party, that is linked to objective information concerning irregularities or fraud.

4. The application of a temporary suspension shall be subject to the following conditions:

(a) The Party or Signatory CARIFORUM State which has made a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud shall without undue delay notify the CARIFORUM-UK Trade and Development Committee of its finding together with the objective information and enter into consultations within the CARIFORUM-UK Trade and Development Committee, on the basis of all relevant information and objective findings, with a view to reaching a solution acceptable to both Parties.

(b) Where the Parties have entered into consultations within the CARIFORUM-UK Trade and Development Committee as above and have failed to agree on an acceptable solution within three months following the notification, the Party or Signatory CARIFORUM State concerned may temporarily suspend the relevant preferential treatment of the product(s) concerned. A temporary suspension shall be notified to the CARIFORUM-UK Trade and Development Committee without undue delay.

(c) Temporary suspensions under this Article shall be limited to that necessary to protect the financial interests of the Party or Signatory CARIFORUM State concerned. They shall not exceed a period of six months, which may be renewed. Temporary suspensions shall be notified immediately after their adoption to the CARIFORUM-UK Trade and Development Committee. They shall be subject to periodic consultations within the CARIFORUM-UK Trade and Development Committee in particular with a view to their termination as soon as the conditions for their application no longer exist.

5. At the same time as the notification to the CARIFORUM-UK Trade and Development Committee under paragraph 4(a), the Party or Signatory CARIFORUM State concerned should publish a notice to importers in its official journal. The notice to importers should indicate for the product concerned that there is a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud.

Article 20 bis

In furtherance of the efforts of the Parties to find an acceptable solution to the matters referred to in Article 20(2), the Party or Signatory CARIFORUM State against which a finding has been notified to the CARIFORUM-UK Trade and Development Committee may also seek recourse to a Mediator, in accordance with the provisions of Article 205(2)-205(5). The Mediator's opinion shall be notified within the period of three months referred to in Article 20(4)(b).

Article 21

Treatment of administrative errors

In case of error by the competent authorities in the proper management of the preferential system of export, and in particular in the application of the provisions of Protocol I, where this error leads to consequences in terms of import duties, the Party facing such consequences may request the CARIFORUM-UK Trade and Development Committee to examine the possibilities of adopting all appropriate measures with a view to resolving the situation.

Article 22

Cooperation

1. The Parties recognise the importance of cooperation in order to strengthen tax administration and improve the collection of tax revenues.

2. Subject to the provisions of Article 7, the Parties agree to cooperate, including by facilitating support, in the following areas:

(a) technical assistance in the area of fiscal reform with a view to shifting dependence from tariff and other duties and charges to other forms of indirect taxation; and

(b) capacity and institution building in regard to the measures outlined in subparagraph (a).

CHAPTER 2

Trade defence instruments

Article 23

Anti-dumping and countervailing measures

1. Subject to the provisions of this Article, nothing in this Agreement shall prevent the United Kingdom or Signatory CARIFORUM States, whether individually or collectively, from adopting anti-dumping or countervailing measures in accordance with the relevant WTO agreements. For the purpose of this Article, origin shall be determined in accordance with the non-preferential rules of origin of the Parties or Signatory CARIFORUM States.

2. Before imposing definitive anti-dumping or countervailing duties in respect of products imported from CARIFORUM States, the United Kingdom shall consider the possibility of constructive remedies as provided for in the relevant WTO agreements.

3. Where an anti-dumping or countervailing measure has been imposed on behalf of two or more Signatory CARIFORUM States by a regional or sub-regional authority, there shall be one single forum of judicial review, including the stage of appeals.

4. A Signatory CARIFORUM State shall not apply an anti-dumping or countervailing measure on a product where it falls within the scope of a regional or sub-regional measure imposed on the same product. Similarly, the CARIFORUM States shall ensure that a regional or sub-regional measure imposed on a product does not apply to any Signatory CARIFORUM State which is applying such a measure on the same product.

5. The United Kingdom shall notify the exporting Signatory CARIFORUM States of the receipt of a properly documented complaint before initiating any investigation.

6. The provisions of this Article shall be applicable in all investigations initiated after this Agreement enters into force.

7. The provisions of this Article shall not be subject to the Dispute Settlement provisions of this Agreement.

Article 24

Multilateral safeguards

1. Subject to the provisions of this Article, nothing in this Agreement shall prevent the Signatory CARIFORUM States and the United Kingdom from adopting measures in accordance with Article XIX of the GATT 1994, the Agreement on Safeguards, and Article 5 of the Agreement on Agriculture annexed to the Marrakech Agreement Establishing the World Trade Organization. For the purpose of this Article, origin shall be determined in accordance with the non-preferential rules of origin of the Parties or Signatory CARIFORUM States.

2. Notwithstanding paragraph 1, in the light of the overall development objectives of this Agreement and the small size of the economies of the CARIFORUM States, the United Kingdom shall exclude imports from any CARIFORUM State from any measures taken pursuant to Article XIX of the GATT 1994, the WTO Agreement on Safeguards and Article 5 of the Agreement on Agriculture.

3. The provisions of paragraph 2 shall apply for a period of five years, beginning with the date of entry into force of the Agreement. Not later than 120 days before the end of this period, the Joint CARIFORUM-UK Council shall review the operation of those provisions in the light of the development needs of the CARIFORUM States, with a view to determining whether to extend their application for a further period.

4. The provisions of paragraph 1 shall not be subject to the Dispute Settlement provisions of this Agreement.

Article 25

Safeguard clause

1. Notwithstanding Article 24, after having examined alternative solutions, a Party may apply safeguard measures of limited duration which derogate from the provisions of Article 15 or 16 as the case may be, under the conditions and in accordance with the procedures laid down in this Article.

2. Safeguard measures referred to in paragraph 1 may be taken where a product originating in one Party is being imported into the territory of the other Party in such increased quantities and under such conditions as to cause or threaten to cause:

(a) serious injury to the domestic industry producing like or directly competitive products in the territory of the importing Party; or

(b) disturbances in a sector of the economy, particularly where these disturbances produce major social problems, or difficulties which could bring about serious deterioration in the economic situation of the importing Party, or

(c) disturbances in the markets of like or directly competitive agricultural products([1])or in the mechanisms regulating those markets.

3. Safeguard measures referred to in this Article shall not exceed what is necessary to remedy or prevent the serious injury or disturbances, as defined in paragraph 2. Those safeguard measures of the importing Party may only consist of one or more of the following:

(a) suspension of the further reduction of the rate of import duty for the product concerned, as provided for under this Agreement,

2. In sectors where market access commitments are undertaken, the measures which the United Kingdom and the Signatory CARIFORUM States shall not maintain or adopt

[1] The terms 'constitution' and 'acquisition' of a juridical person shall be understood as including capital participation in a juridical person with a view to establishing or maintaining lasting economic links. When the juridical person has the status of a company limited by shares, there is a lasting economic link where the block of shares held enables the shareholder, either pursuant to the provisions of national laws relating to companies limited by shares or otherwise, to participate effectively in the management of the company or in its control. Long-term loans of a participating nature are loans for a period of more than five years which are made for the purpose of establishing or maintaining lasting economic links; the main examples being loans granted by a company to its subsidiaries or to companies in which it has a share and loans linked with a profit-sharing arrangement.

[2] A juridical person is controlled by another juridical person if the latter has the power to name a majority of its directors or otherwise to legally direct its actions.

[3] Measures relating to expropriation and investor-to-State dispute settlement such as those covered in bilateral investment treaties are not deemed to affect commercial presence.

[4] National maritime cabotage covers transport services within a Signatory CARIFORUM State or within the United Kingdom for the carriage of passengers or goods originating and terminating in that Signatory CARIFORUM State or in the United Kingdom.

either on the basis of a regional subdivision or on the basis of their entire territory, unless otherwise specified in Annex IV, are defined as:

(c) limitations on the total number of operations or on the total quantity of output expressed in terms of designated numerical units in the form of quotas or the requirement of an economic needs test ([1]);

(d) limitations on the participation of foreign capital in terms of maximum percentage limit on foreign shareholding or the total value of individual or aggregate foreign investment; and

(e) measures which restrict or require specific types of commercial presence (subsidiary, branch, representative office) ([2]) or joint ventures through which an investor of the other Party may perform an economic activity.

Article 68

National treatment

1. In the sectors where market access commitments are inscribed in Annex IV and subject to any conditions and qualifications set out therein, with respect to all measures affecting commercial presence, the United Kingdom and the Signatory CARIFORUM States shall grant to commercial presences and investors of the other Party treatment no less favourable than that they accord to their own like commercial presences and investors.

2. The United Kingdom and the Signatory CARIFORUM States may meet the requirement of paragraph 1 by according to commercial presences and investors of the other Party, either formally identical treatment or formally different treatment to that they accord to their own like commercial presences and investors.

3. Formally identical or formally different treatment shall be considered to be less favourable if it modifies the conditions of competition in favour of commercial presences and investors of the United Kingdom or of the Signatory CARIFORUM States compared to like commercial presences and investors of the other Party.

4. Specific commitments assumed under this Article shall not be construed to require the United Kingdom or the Signatory CARIFORUM States to compensate for inherent competitive disadvantages which result from the foreign character of the relevant commercial presences and investors.

Article 69

Lists of commitments

The sectors liberalised by the United Kingdom and by the Signatory CARIFORUM States pursuant to this Chapter and, by means of reservations, the market access and national treatment limitations applicable to commercial presences and investors of the other Party in those sectors are set out in lists of commitments included in Annex IV.

Article 70

Most-favoured-nation treatment

1. With respect to any measures affecting commercial presence covered by this Chapter:

(a) the United Kingdom shall accord to commercial presences and investors of the Signatory CARIFORUM States a treatment no less favourable than the most favourable treatment applicable to like commercial presences and investors of any third country with whom it concludes an economic integration agreement after the signature of this Agreement;

(b) the Signatory CARIFORUM States shall accord to the commercial presences and investors of the United Kingdom a treatment no less favourable than the most favourable treatment applicable to like commercial presences and investors of any major trading economy with whom they conclude an economic integration agreement after the signature of this Agreement.

2. When a Party or a Signatory CARIFORUM State concludes a regional economic integration agreement creating an internal market or requiring the parties thereto to significantly approximate their legislation with a view to removing non-discriminatory obstacles to commercial presence and to trade in services, the treatment that such Party or Signatory CARIFORUM State grants to commercial presences and investors of third countries in sectors subject to the internal market or to the significant approximation of legislation is not covered by the provision of paragraph 1([3]).

3. The obligations set out in paragraph 1 shall not apply to treatment granted:

(a) under measures providing for recognition of qualifications, licences or prudential measures in accordance with Article VII of the GATS or its Annex on Financial Services,

(b) under any international agreement or arrangement relating wholly or mainly to taxation, or

(c) under measures benefiting from the coverage of an MFN exemption listed in accordance with Article II.2 of the GATS.

[1] Subparagraphs 2(a), 2(b) and 2(c) do not cover measures taken in order to limit the production of an agricultural product.

[2] Each Party or Signatory CARIFORUM State may require that in the case of incorporation under its own law, investors must adopt a specific legal form. To the extent that such requirement is applied in a non-discriminatory manner, it does not need to be specified in a Party's list of commitments in order to be maintained or adopted by that Party.

[3] At the time of signature of this Agreement, the European Economic Area, pre-accession agreements to the European Union, the CARICOM Single Market and Economy, the Organisation of Eastern Caribbean States Economic Union and the CARICOM-Dominican Republic Free Trade Agreement are deemed to fall in their entirety under this exception.

1502—*Continued*

4. For the purpose of this provision, a 'major trading economy' means any developed country, or any country accounting for a share of world merchandise exports above 1 % in the year before the entry into force of the economic integration agreement referred to in paragraph 1, or any group of countries acting individually, collectively or through an economic integration agreement accounting collectively for a share of world merchandise exports above 1,5 % in the year before the entry into force of the economic integration agreement referred to in paragraph 1([1]).

5. Where any Signatory CARIFORUM State becomes party to an economic integration agreement with a third party referred to in paragraph 1(b) and that agreement provides for more favourable treatment to such third party than that granted by the Signatory CARIFORUM State to the United Kingdom pursuant to this Agreement, the Parties shall enter into consultations. The Parties may decide whether the concerned Signatory CARIFORUM State may deny the more favourable treatment contained in the economic integration agreement to the United Kingdom. The Joint CARIFORUM- UK Council may adopt any necessary measures to adjust the provisions of this Agreement.

Article 71

Other agreements

Nothing in this Title shall be taken to limit the rights of investors of the Parties to benefit from any more favourable treatment provided for in any existing or future international agreement relating to investment to which the United Kingdom and a Signatory CARIFORUM State are parties.

Article 72

Behaviour of investors

The United Kingdom and the Signatory CARIFORUM States shall cooperate and take, within their own respective territories, such measures as may be necessary, *inter alia,* through domestic legislation, to ensure that:

(a) Investors be forbidden from, and held liable for, offering, promising or giving any undue pecuniary or other advantage, whether directly or through intermediaries, to any public official or member of his or her family or business associates or other person in close proximity to the official, for that person or for a third party, in order that the official or third party act or refrain from acting in relation to the performance of official duties, or in order to achieve any favour in relation to a proposed investment or any licences, permits, contracts or other rights in relation to an investment.

(b) Investors act in accordance with core labour standards as required by the International Labour Organization ('ILO') Declaration on Fundamental Principles and Rights at Work, 1998, to which the United Kingdom and the Signatory CARIFORUM States are parties([2]).

(c) Investors do not manage or operate their investments in a manner that circumvents international environmental or labour obligations arising from agreements to which the United Kingdom and the Signatory CARIFORUM States are parties.

(d) Investors establish and maintain, where appropriate, local community liaison processes, especially in projects involving extensive natural resource-based activities, in so far that they do not nullify or impair the benefits accruing to the other Party under the terms of a specific commitment.

Article 73

Maintenance of standards

The United Kingdom and the Signatory CARIFORUM States shall ensure that foreign direct investment is not encouraged by lowering domestic environmental, labour or occupational health and safety legislation and standards or by relaxing core labour standards or laws aimed at protecting and promoting cultural diversity.

Article 74

Review

With a view to the progressive liberalisation of investments, the Parties shall review the investment legal framework, the investment environment, and the flow of investment between them consistent with their commitments in international agreements no later than three years after the entry into force of this Agreement and at regular intervals thereafter.

[1] For this calculation official data by the WTO on leading exporters in world merchandise trade (excluding intra-European Union trade) shall be used.
[2] These core labour standards are further elaborated, in accordance with the Declaration, in ILO Conventions concerning freedom of association, the elimination of forced labour, the abolition of child labour and the elimination of discrimination in the work place.

2. This entry and temporary stay into their territories, when allowed, shall be for a period of up to 90 days in any 12-month period.

CHAPTER 5
Regulatory framework

Section 1

Provisions of general application

Article 85

Mutual recognition

1. Nothing in this Title shall prevent the United Kingdom and the Signatory CARIFORUM States from requiring that natural persons must possess the necessary qualifications and/or professional experience specified in the territory where the service is supplied, for the sector of activity concerned.

2. The Parties shall encourage the relevant professional bodies in their respective territories to jointly develop and provide recommendations on mutual recognition to the CARIFORUM- UK Trade and Development Committee, for the purpose of the fulfilment, in whole or in part, by investors and service suppliers of the criteria applied by the United Kingdom and by the Signatory CARIFORUM States for the authorisation, licensing, operation and certification of investors and service suppliers and, in particular, in the professional services sector.

3. In particular, the Parties shall encourage the relevant professional bodies in their respective territories to start negotiations no later than three years after entry into force of this Agreement in order to jointly develop and provide such recommendations on mutual recognition, among others, in the following disciplines: accounting, architecture, engineering and tourism.

4. On receipt of a recommendation referred to in the preceding paragraph, the CARIFORUM-UK Trade and Development Committee shall, within a reasonable time, review the recommendation with a view to determining whether it is consistent with this Agreement.

5. When, in conformity with the procedure set out in paragraph 2, a recommendation referred to in the same paragraph has been found to be consistent with this Agreement and there is a sufficient level of correspondence between the relevant regulations of the Parties and the Signatory CARIFORUM States, the Parties shall, with a view to implementing that recommendation, negotiate, through their competent authorities, an agreement on mutual recognition of requirements, qualifications, licences and other regulations.

6. Any such agreement shall be in conformity with the relevant provisions of the WTO Agreement and, in particular, Article VII of the GATS.

7. The CARIFORUM-UK Trade and Development Committee shall review progress made in mutual recognition every two years.

Article 86

Transparency

Subject to Article 235(3) the Parties and the Signatory CARIFORUM States shall respond promptly to all requests

made by the other Party for specific information on any of their measures of general application or international agreements which pertain to or affect this Agreement. The Parties shall also establish one or more enquiry points to provide, upon request, specific information to investors and services suppliers of the other Party on all such matters. Such enquiry points are listed in Annex V. Enquiry points need not be depositories of laws and regulations.

Article 87

Procedures

1. Where authorisation is required for the supply of a service or commercial presence on which a specific commitment has been made, the competent authorities of the Parties and of the Signatory CARIFORUM States shall, within a reasonable period of time after the submission of an application considered complete under domestic laws and regulations, inform the applicant of the decision concerning the application. At the request of the applicant, the competent authorities of the Parties or of the Signatory CARIFORUM States as the case may be shall provide, without undue delay, information concerning the status of the application.

2. The Parties and the Signatory CARIFORUM States shall maintain or institute judicial, arbitral or administrative tribunals or procedures which provide, at the request of an affected investor or service supplier, for a prompt review of, and where justified, appropriate remedies for, administrative decisions affecting commercial presence, cross border supply of services or temporary presence of natural persons for business purpose. Where such procedures are not independent of the agency entrusted with the administrative decision concerned, the Parties and the Signatory CARIFORUM States shall ensure that the procedures in fact provide for an objective and impartial review.

Section 2

Computer services

Article 88

Understanding on computer services

1. To the extent that trade in computer services is liberalised in accordance with Chapters 2, 3 and 4 of this Title, the United Kingdom and the Signatory CARIFORUM States subscribe to the understanding defined in paragraphs 2, 3 and 4.

2. CPC 84, the United Nations code used for describing computer and related services, covers the basic functions used to provide all computer and related services: computer programs defined as the sets of instructions required to make computers work and communicate (including their development and implementation), data processing and storage, and related services, such as consultancy and training services for staff of clients. Technological developments have led to the increased offering of these services as a bundle or package of related services that can include some or all of these basic functions. For example, services such as web or domain hosting, data mining services and grid computing each consist of a combination of basic computer services functions.

3. Computer and related services, regardless of whether they are delivered via a network, including the Internet, include all services that provide:

(a) consulting, strategy, analysis, planning, specification, design, development, installation, implementation, integration, testing, debugging, updating, support, technical assistance, or management of or for computers or computer systems; or

(b) computer programs defined as the sets of instructions required to make computers work and communicate (in and of themselves), plus consulting, strategy, analysis, planning, specification, design, development, installation, implementation, integration, testing, debugging, updating, adaptation, maintenance, support, technical assistance, management or use of or for computer programs; or

(c) data processing, data storage, data hosting or database services; or

(d) maintenance and repair services for office machinery and equipment, including computers; or

(e) training services for staff of clients, related to computer programs, computers or computer systems, and not elsewhere classified.

4. Computer and related services enable the provision of other services (e.g. banking) by both electronic and other means. However, there is an important distinction between the enabling service (e.g. web-hosting or application hosting) and the content or core service that is being delivered electronically (e.g. banking). In such cases, the content or core service is not covered by CPC84.

Section 3

Courier services

Article 89

Scope and definitions

1. This Section sets out the principles of the regulatory framework for all courier services liberalised in accordance with Chapters 2, 3 and 4 of this Title.

2. For the purpose of this Section and of Chapters 2, 3 and 4 of this Title:

(a) 'universal service' means the permanent provision of a postal service of specified quality at all points in the territory of the United Kingdom and of the Signatory CARIFORUM States at affordable prices for all users;

(b) an 'individual licence' means an authorisation, granted to an individual supplier by a regulatory authority, which is required before supplying a given service.

Article 90

Prevention of anti-competitive practices in the courier sector

In accordance with the provisions of Chapter 1 of Title IV, appropriate measures shall be maintained or introduced by the United Kingdom or the Signatory CARIFORUM States for the purpose of preventing suppliers who, alone or together,

1502—*Continued*

have the ability to affect materially the terms of participation (having regard to price and supply) in the relevant market for courier services as a result of use of their position in the market, from engaging in or continuing anti-competitive practices.

Article 91

Universal service

The United Kingdom or any Signatory CARIFORUM State has the right to define the kind of universal service obligation they wish to maintain. Such obligations will not be regarded as anti- competitive *per se*, provided they are administered in a transparent, non-discriminatory and competitively neutral manner and are not more burdensome than necessary for the kind of universal service as defined by the United Kingdom and the Signatory CARIFORUM States.

Article 92

Individual licences

1. An individual licence may only be required for services which are within the scope of the universal service.

2. Where an individual licence is required, the following shall be made publicly available:

(a) all the licensing criteria and the period of time normally required to reach a decision concerning an application for a licence, and

(b) the terms and conditions of individual licences.

The reasons for the denial of an individual licence shall be made known to the applicant upon request and an appeal procedure through an independent body will be established at the level of the United Kingdom and of the Signatory CARIFORUM States. Such a procedure will be transparent, non-discriminatory, and based on objective criteria.

Article 93

Independence of the regulatory bodies

The regulatory bodies shall be legally separate from, and not accountable to, any supplier of courier services. The decisions of and the procedures used by the regulatory bodies shall be impartial with respect to all market participants.

Section 4

Telecommunications services

Article 94

Definitions and scope

1. For the purpose of this Title:

(a) 'telecommunications services' means all services consisting of the transmission and reception of electro-magnetic signals and do not cover the economic activity consisting of the provision of content which requires telecommunications for its transport;

(b) a 'regulatory authority' in the telecommunications sector means the body or bodies charged with the regulation of telecommunications mentioned in this Chapter;

(c) 'essential telecommunications facilities' mean facilities of a public telecommunications transport network and service that:

(i) are exclusively or predominantly provided by a single or limited number of suppliers; and

(ii) cannot feasibly be economically or technically substituted in order to provide a service;

(d) a 'major supplier' in the telecommunications sector is a supplier which has the ability to materially affect the terms of participation (having regard to price and supply) in the relevant market for telecommunications services as a result of control over essential facilities or the use of its position in the market;

(e) 'interconnection' means linking with suppliers providing public telecommunications transport networks or services in order to allow the users of one supplier to communicate with users of another supplier and to access services provided by another supplier;

(f) 'universal service' means the set of services of specified quality that must be made available to all users in the territory of the United Kingdom and of the Signatory CARIFORUM States regardless of their geographical location and at an affordable price; its scope and implementation are decided by the United Kingdom and by the Signatory CARIFORUM States.

2. This Section sets out the principles of the regulatory framework for the following telecommunications services, other than broadcasting, liberalised pursuant to Chapters 2, 3 and 4 of this Title: voice telephone services, packet-switched data transmission services, circuit-switched data transmission services, telex services, telegraph services, facsimile services, private leased circuit services and mobile and personal communications services and systems.

Article 95

Regulatory authority

1. Regulatory authorities for telecommunications services shall be legally distinct and functionally independent from any supplier of telecommunications services.

2. The regulatory authority shall be sufficiently empowered to regulate the sector. The tasks to be undertaken by a regulatory authority shall be made public in an easily accessible and clear form, in particular where those tasks are assigned to more than one body.

3. The decisions of and the procedures used by regulators shall be impartial with respect to all market participants.

4. A supplier affected by the decision of a regulatory authority shall have a right to appeal against that decision to an appeal body that is independent of the parties involved.

Where the appeal body is not judicial in character, written reasons for its decision shall always be given and its decisions shall also be subject to review by an impartial and independent judicial authority. Decisions taken by appeal bodies shall be effectively enforced.

Article 96

Authorisation to provide telecommunications services

1. Provision of services shall, as much as possible, be authorised following mere notification.

2. A licence can be required to address issues of attributions of numbers and frequencies. The terms and conditions for such licences shall be made publicly available.

3. Where a licence is required:

(a) all the licensing criteria and a reasonable period of time normally required to reach a decision concerning an application for a licence shall be made publicly available;

(b) the reasons for the denial of a licence shall be made known in writing to the applicant upon request;

(c) the applicant of a licence shall be able to seek recourse before an appeal body in case a licence is unduly denied;

(d) licence fees required by the United Kingdom or by the Signatory CARIFORUM States for granting a licence shall not exceed the administrative costs normally incurred in the management, control and enforcement of the applicable licences.

Article 97

Competitive safeguards on major suppliers

In accordance with the provisions of Chapter 1 of Title IV, appropriate measures shall be maintained or introduced by the United Kingdom or the Signatory CARIFORUM States for the purpose of preventing suppliers who, alone or together, are a major supplier from engaging in or continuing anti-competitive practices. These anti-competitive practices shall include in particular:

(a) engaging in anti-competitive cross-subsidisation;

(b) using information obtained from competitors with anti-competitive results; and

(c) not making available to other services suppliers on a timely basis technical information about essential facilities and commercially relevant information which are necessary for them to provide services.

Article 98

Interconnection

1. Any supplier authorised to provide telecommunications services shall have the right to negotiate interconnection with other providers of publicly available telecommunications networks and services. Interconnection should in principle be agreed on the basis of commercial negotiation between the companies concerned.

2. Regulatory authorities shall ensure that suppliers that acquire information from another undertaking during the process of negotiating interconnection arrangements use that information solely for the purpose for which it was supplied and respect at all times the confidentiality of information transmitted or stored.

3. Interconnection with a major supplier shall be ensured at any technically feasible point in the network. Such interconnection shall be provided:

(a) under non-discriminatory terms, conditions (including technical standards and specifications) and rates and of a quality no less favourable than that provided for its own like services or for like services of non-affiliated service suppliers or for its subsidiaries or other affiliates;

(b) in a timely fashion, on terms, conditions (including technical standards and specifications) and rates that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the supplier need not pay for network components or facilities that it does not require for the service to be provided; and

(c) upon request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

4. The procedures applicable for interconnection to a major supplier shall be made publicly available.

5. Major suppliers shall make publicly available either their interconnection agreements or their reference interconnection offers.

6. A service supplier requesting interconnection with a major supplier shall have recourse, either at any time or after a reasonable period of time which has been made publicly known, to an independent domestic body, which may be a regulatory body as referred to in Article 95, to resolve disputes regarding appropriate terms, conditions and rates for interconnection.

Article 99

Scarce resources

Any procedures for the allocation and use of scarce resources, including frequencies, numbers and rights of way, shall be carried out in an objective, timely, transparent and non-discriminatory manner. The current state of allocated frequency bands shall be made publicly available, but detailed identification of frequencies allocated for specific government uses is not required.

Article 100

Universal service

1. The United Kingdom or any Signatory CARIFORUM State has the right to define the kind of universal service obligations they wish to maintain.

2. Such obligations will not be regarded as anti-competitive *per se*, provided they are administered in a transparent,

1502—*Continued*

objective and non-discriminatory way. The administration of such obligations shall also be neutral with respect to competition and not more burdensome than necessary for the kind of universal service defined by the United Kingdom and by the Signatory CARIFORUM States.

3. All suppliers should be eligible to ensure universal service. The designation shall be made through an efficient, transparent and non-discriminatory mechanism. Where necessary, the United Kingdom and the Signatory CARIFORUM States shall assess whether the provision of universal service represents an unfair burden on organisation(s) designated to provide universal service. Where justified on the basis of such calculation, and taking into account the market benefit, if any, which accrues to an organisation that offers universal service, national regulatory authorities shall determine whether a mechanism is required to compensate the supplier(s) concerned or to share the net cost of universal service obligations.

4. The United Kingdom and the Signatory CARIFORUM States shall ensure that:

(a) directories of all subscribers are available to users in a form approved by the national regulatory authority, whether printed or electronic, or both, and are updated on a regular basis, and at least once a year;

(b) organisations that provide the services referred to in subparagraph (a) apply the principle of non-discrimination to the treatment of information that has been provided to them by other organisations.

Article 101

Confidentiality of information

The United Kingdom and the Signatory CARIFORUM States shall ensure the confidentiality of telecommunications and related traffic data by means of a public telecommunication network and publicly available telecommunications services, without restricting trade in services.

Article 102

Disputes between suppliers

1. In the event of a dispute arising between suppliers of telecommunications networks or services in connection with rights and obligations that arise from this Chapter, the national regulatory authority concerned shall, at the request of either party to the dispute, issue a binding decision to resolve the dispute in the shortest possible timeframe.

2. When such a dispute concerns the cross-border provision of services, the national regulatory authorities concerned shall coordinate their efforts in order to bring about a resolution of the dispute.

2. Nothing in this Agreement shall be construed to require the United Kingdom or the Signatory CARIFORUM States to disclose information relating to the affairs and accounts of individual customers or any confidential or proprietary information in the possession of public entities.

Article 105

Effective and transparent regulation

1. The Parties and the Signatory CARIFORUM States shall endeavour to provide in advance to all interested persons any measure of general application that the United Kingdom or the Signatory CARIFORUM States propose to adopt in order to allow an opportunity for such persons to comment on the measure. Such measure shall be provided:

(a) by means of an official publication; or

(b) in other written or electronic form.

2. The United Kingdom and the Signatory CARIFORUM States shall make available to interested persons their requirements for completing applications relating to the supply of financial services.

The United Kingdom and the Signatory CARIFORUM States may determine the juridical form through which the service may be provided and may require authorisation for the provision of the service. Where such authorisation is required, a decision shall be made within a reasonable time and the authorisation may only be refused for prudential reasons.

Article 107

Data processing

1. The United Kingdom and the Signatory CARIFORUM States shall permit a financial service supplier of the other Party to transfer information in electronic or other form, into and out of their territory, for data processing where such

Article 108

Specific exceptions

1. Nothing in this Title shall be construed to prevent the United Kingdom and the Signatory CARIFORUM States, including their public entities, from exclusively conducting or providing in their territory activities or services forming part of a public retirement plan or statutory system of social security, except when those activities may be carried out, as provided by the domestic regulation of the United Kingdom or the Signatory CARIFORUM State concerned, by financial service suppliers in competition with public entities or private institutions.

2. Nothing in this Agreement applies to activities conducted by a central bank or monetary authority or by any other public entity in pursuit of monetary or exchange rate policies.

Section 6

International maritime transport services

Article 109

Scope, definitions and principles

1. This Section sets out the principles regarding the liberalisation of international maritime transport services pursuant to Chapters 2, 3 and 4 of this Title.

2. For the purpose of this Section and Chapters 2, 3 and 4 of this Title:

(a) 'international maritime transport' includes door to door and multi-modal transport operations, which is the carriage of goods using more than one mode of transport, involving a sea-leg, under a single transport document, and to this effect includes the right to directly contract with providers of other modes of transport;

(b) 'maritime cargo handling services' means activities exercised by stevedore companies, including terminal operators, but not including the direct activities of dockers, when this workforce is organised independently of the stevedoring or terminal operator companies. The activities covered include the organisation and supervision of:

(i) the loading/discharging of cargo to/from a ship;

(ii) the lashing/unlashing of cargo;

(iii) the reception/delivery and safekeeping of cargoes before shipment or after discharge;

(c) 'customs clearance services' (alternatively 'customs house brokers' services') means activities consisting of carrying out on behalf of another party customs formalities concerning import, export or through transport of cargoes, whether this service is the main activity of the service provider or a usual complement of its main activity;

(d) 'container station and depot services' means activities consisting of storing containers, whether in port areas or inland, with a view to their stuffing/stripping, repairing and making them available for shipments;

(e) 'maritime agency services' means activities consisting of representing, within a given geographic area, as an agent the business interests of one or more shipping lines or shipping companies, for the following purposes:

(i) marketing and sales of maritime transport and related services, from quotation to invoicing, and issuance of bills of lading on behalf of the companies, acquisition and resale of the necessary related services, preparation of documentation, and provision of business information;

(ii) acting on behalf of the companies organising the call of the ship or taking over cargoes when required;

(f) 'freight forwarding services' means the activity consisting of organising and monitoring shipment operations on behalf of shippers, through the acquisition of transport and related services, preparation of documentation and provision of business information.

3. In view of the existing levels of liberalisation between the Parties in international maritime transport:

(a) The United Kingdom and the Signatory CARIFORUM States shall apply effectively the principle of unrestricted access to the international maritime markets and trades on a commercial and non-discriminatory basis;

(b) The United Kingdom and the Signatory CARIFORUM States shall grant to ships flying the flag of the other Party or of any Signatory CARIFORUM State or operated by service suppliers of the other Party treatment no less favourable than that accorded to their own ships with regard to, *inter alia,* access to ports, use of infrastructure and auxiliary maritime services of the ports, as well as related fees and charges, customs facilities and the assignment of berths and facilities for loading and unloading.

4. In applying these principles, the United Kingdom and the Signatory CARIFORUM States shall:

(a) not introduce cargo-sharing arrangements in future bilateral agreements with third countries concerning maritime transport services, including dry and liquid bulk and liner trade, and terminate, within a reasonable period of time, such cargo-sharing arrangements in case they exist in previous bilateral agreements; and

(b) upon the entry into force of this Agreement, abolish

and abstain from introducing any unilateral measures and administrative, technical and other obstacles which could constitute a disguised restriction or have discriminatory effects on the free supply of services in international maritime transport.

5. The United Kingdom and the Signatory CARIFORUM States shall not be required to apply the protection of geographical indications referred to in section B with respect to goods for which the relevant indication is identical with the term customary in common language as the common name for such goods in their respective territories.

2. Nothing in this Section shall require the United Kingdom and the Signatory CARIFORUM States to apply the protection of geographical indications referred to in section B with respect to products of the vine, plants or animals for which the relevant indication is identical with the name of a grape variety, plant variety or animal breed existing in the territory of the United Kingdom or the Signatory CARIFORUM State concerned as of the date of entry into force of this Agreement.

3. Homonymous geographical indications shall be protected by the United Kingdom and Signatory CARIFORUM States provided that there is a sufficient distinction in practice between the geographical indication first protected and the homonym subsequently protected, having regard to the need to treat the producers concerned in an equitable manner and not to mislead consumers. A homonymous name that misleads the consumer in to believing that products come from another territory shall not be protected by the United Kingdom or the Signatory CARIFORUM State concerned.

4. If a geographical indication of the United Kingdom or Signatory CARIFORUM State is homonymous with a geographical indication for a third country, Article 23(3) of the TRIPS Agreement applies *mutatis mutandis*.

D. Relationship between geographical indications and trade marks

1. A geographical indication shall not be registered in the United Kingdom or the Signatory CARIFORUM States where, in the light of a trade mark's reputation and renown and the length of time it has been used, registration is liable to mislead the consumer as to the true identity of the product.

2. From the date of entry into force of this Agreement, the registration of a trade mark which is identical with, similar to or containing a geographical indication protected respectively in the United Kingdom or in the Signatory CARIFORUM States pursuant to section B and relating to the same class of product shall be refused respectively in the United Kingdom or in the Signatory CARIFORUM States. Furthermore, the registration of a trade mark in such circumstances shall be refused respectively in the United Kingdom or in the Signatory CARIFORUM States if the application for registration of the trade mark was submitted after the date of application for protection of the geographical indication in the territory concerned and the geographical indication is subsequently protected.

3. Trade marks registered in breach of the preceding paragraph shall be invalidated.

4. The United Kingdom and the Signatory CARIFORUM States shall ensure that, subject to the provisions of section D(1), (2) and (3), a trade mark, the use of which corresponds to one of the situations referred to in section B(3), and which has been applied for, registered or established by use, if that possibility is provided for by the applicable legislation, in good faith within the territories of the United Kingdom or of a Signatory CARIFORUM State, before the date of application of the WTO obligations in the United Kingdom or a Signatory CARIFORUM State, or before the date of application for protection of the geographical indication in the respective territories, may continue to be used notwithstanding the registration of the geographical indication, provided that no

1502—*Continued*

grounds for the invalidity or revocation of the trade mark exist as specified by the legislation of the United Kingdom or of the concerned Signatory CARIFORUM State. In such case, the use of the geographical indication shall be permitted alongside the relevant trade mark.

E. Future protection agreement

The United Kingdom and the Signatory CARIFORUM States shall no later than the date of entry into force of this Agreement or if this Agreement is provisionally applied, the date such provisional application takes effect, commence negotiations aimed at an agreement on the protection of geographical indications in their respective territories, without prejudice to any individual requests for protection that may have been filed directly.

F. Internet use

The United Kingdom and the Signatory CARIFORUM States accept the need for a clear legal framework for geographical indications owners who wish to use their geographical indications on the Internet and to participate in the development of electronic commerce which includes provisions addressing whether the use of a sign on the Internet has contributed to the usurpation, evocation, acquisition in bad faith or infringement of a geographical indication or whether such use constitutes an act of unfair competition, and a determination of the remedies, including the eventual transfer or cancellation of the domain name. In this respect, the United Kingdom and the Signatory CARIFORUM States shall endeavour to apply the Joint Recommendation concerning the protection of marks, and other industrial property rights in signs, on the Internet, as adopted by WIPO at the Thirty-Sixth Series of Meetings of the Assemblies of the Member States of WIPO, 24 September to 3 October 2001.

Unregistered designs and textile designs may be protected by a design right or copyright.

C. Exceptions

1. The United Kingdom and the Signatory CARIFORUM States may provide limited exceptions to the protection of industrial designs, provided that such exceptions do not unreasonably conflict with the normal exploitation of protected industrial designs and do not unreasonably prejudice the legitimate interests of the owner of the protected design, taking account of the legitimate interests of third parties.

2. Design protection shall not extend to designs dictated essentially by technical or functional considerations.

3. A design right shall not subsist in a design which is contrary to public policy or to accepted principles of morality.

2. For unregistered designs, the contested use shall not be deemed to result from copying the protected design if it results from an independent work of creation from a designer who may be reasonably thought not to be familiar with the design made available to the public by the holder.

E. Term of protection

1. The initial duration of protection available in the United Kingdom and the Signatory CARIFORUM States following registration shall amount to at least five years. At the request of the right holder, registration shall be renewed for one or more periods of five years each, but not exceeding 25 years from the date of filing, provided that the renewal fee has been paid.

2. The duration of protection available in the United Kingdom and the Signatory CARIFORUM States for unregistered designs shall amount to at least three years as from the date on which the design was made available to the public in the respective territory.

(ii) under the particular procedure or condition of an international agreement relating to the stationing of troops or relating to the joint implementation of a project by a Party or Signatory CARIFORUM State with a non-Party;

(iii) in support of military forces located outside the territory of the Party or Signatory CARIFORUM State concerned;

(iv) under the particular procedure or condition of an international organisation, or funded by international grants, loans, or other assistance where the applicable procedure or condition would be inconsistent with this Chapter.

Article 168

Transparency of government procurement

1. Subject to Article 180(4), each Party or Signatory CARIFORUM State shall promptly publish any law, regulation, judicial decision and administrative ruling of general application, and procedures, regarding procurement covered by this Chapter, as well as individual procurement opportunities, in the appropriate publications referred to in Annex VII including officially designated electronic media. Each Party or Signatory CARIFORUM State shall promptly publish in the same manner all modifications to such measures, and shall within a reasonable time inform the others of any such modifications.

2. The Parties and the Signatory CARIFORUM States shall ensure that their procuring entities provide for effective dissemination of the tendering opportunities generated by the relevant government processes, providing eligible suppliers with all the information required to take part in such procurement. Each Party shall set up and maintain an appropriate on-line facility to further the effective dissemination of tendering opportunities.

(a) Tender documentation provided to suppliers shall contain all information necessary to permit them to submit responsive tenders. Where entities do not offer free direct access to the entire tender documents and any supporting documents by electronic means, entities shall make promptly available the tender documentation at the request of any eligible supplier of the Parties.

3. For each procurement covered by this Chapter, procuring entities shall, save as otherwise provided, publish in advance a notice of intended procurement. Each notice shall be accessible during the entire time period established for tendering for the relevant procurement.

4. The information in each notice of intended procurement shall include at least the following:

(a) name, address, fax number, electronic address (where available) of the procuring entity and, if different, the address where all documents relating to the procurement may be obtained;

(b) the tendering procedure chosen and the form of the contract;

(c) a description of the intended procurement, as well as essential contract requirements to be fulfilled;

(d) any conditions that suppliers must fulfil to participate in the procurement;

(e) time-limits for submission of tenders and, where applicable, any time limits for the submission of requests for participation in the procurement;

(f) all criteria to be used for the award of the contract; and

(g) if possible, terms of payment and other terms.

5. Procuring entities are encouraged to publish as early as possible in each fiscal year a notice regarding their future procurement plans. The notice should include the subject-matter of the procurement and the planned date of the publication of the notice of intended procurement.

6. Procuring entities operating in the utilities may use such a notice regarding their future procurement plans as a notice of intended procurement provided that it includes as much of the information set out in paragraph 4 as available and a statement that suppliers should express their interest in the procurement to the entity.

Article 169

Methods of procurement

1. Without prejudice to the method of government procurement used in respect of any specific procurement, procuring entities shall ensure that such methods are specified in the notice of intended procurement or tender documents.

2. The Parties or the Signatory CARIFORUM States shall ensure that their laws and regulations clearly prescribe the conditions under which procuring entities may utilise limited tendering procedures. Procuring entities shall not utilise such methods for the purpose of restricting participation in the procurement process in a non-transparent manner.

3. When conducting procurement by electronic means, a procuring entity shall:

(a) ensure that the procurement is conducted using generally available and interoperable information technology products and software, including those related to authentication and encryption of information; and

1502—*Continued*

(b) maintain mechanisms that ensure the integrity of, and prevent inappropriate access to, requests for participation and tenders.

Article 170

Selective tendering

1. Whenever selective tendering procedures are employed, procuring entities shall:

(a) Publish a notice of intended procurement;

(b) In the notice of intended procurement invite eligible suppliers to submit a request for participation;

(c) Select the suppliers to participate in the selective tendering procedure in a fair manner; and

(d) Indicate the time limit for submitting requests for participation.

2. Procuring Entities shall recognise as qualified suppliers all suppliers which meet the conditions for participation in a particular procurement, unless the procuring entity states in the notice or, where publicly available, in the tender documentation, any limitation on the number of suppliers that will be permitted to tender and the objective criteria for such limitation.

3. Where the tender documentation is not made publicly available from the date of publication of the notice referred to in paragraph 1, procuring entities shall ensure that those documents are made available at the same time to all the qualified suppliers selected.

Article 171

Limited tendering

1. When using the limited tendering procedure, a procuring entity may choose not to apply Articles 168, 169(1) and (3), 170, 173 (1), 174, 175, 176 and 178.

2. Procuring entities may award their public contracts by limited tendering procedure, in the following cases:

(a) when no suitable tenders have been submitted in response to an open or selective tendering procedure, on condition that the requirements of the initial tender are not substantially modified;

(b) when, for technical or artistic reasons, or for reasons connected with protection of exclusive rights, the contract may be performed only by a particular supplier and no reasonable alternative or substitute exists;

(c) for reasons of extreme urgency brought about by events unforeseen by the procuring entity, the products or services could not be obtained in time by means of open or selective tendering procedures;

(d) for additional deliveries of goods or services by the original supplier where a change of supplier would compel the procuring entity to procure equipment or services not meeting requirements of interchangeability with already existing equipment or services procured under the initial procurement and such separation would cause significant inconvenience or substantial duplication of costs to the procuring entity;

(e) when a procuring entity procures prototypes or a first product or service which are developed at its request in the course of, and for, a particular contract for research, experiment, study or original development;

(f) when additional services which were not included in the initial contract but which were within the objectives of the original tender documentation have, through unforeseen circumstances, become necessary to complete the services described therein. However, the total value of contracts awarded for the additional services shall not exceed 50 % of the amount of the original contract;

(g) for new services consisting of the repetition of similar services which conform to a basic project for which an initial contract was awarded following an open or selective procurement method, and for which the procuring entity has indicated in the notice of intended procurement that a limited procurement method might be used in awarding contracts for such new services;

(h) for products purchased on a commodity market;

(i) in the case of contracts awarded to the winner of a design contest; in the case of several successful candidates, successful candidates shall be invited to participate in the negotiations as specified in the notice of the intended procurement or the tender documents; and

(j) for purchases made under exceptionally advantageous conditions which only arise in the very short term in the case of unusual disposals such as arising from liquidation, receivership or bankruptcy and not for routine purchases from regular suppliers.

Article 172

Rules of origin

The United Kingdom and the Signatory CARIFORUM States for the purposes of this Chapter shall not apply rules of origin to goods or services imported from or supplied by the United Kingdom and the Signatory CARIFORUM States as the case may be that are different from the rules of origin applicable at the same time in the normal course of trade to imports or supplies of the same goods or services from the same Signatory CARIFORUM State or the United Kingdom.

Article 173

Technical specifications

1. Consistent with the objectives of this Chapter, procuring entities shall ensure that technical specifications applied or intended for application to procurement covered by the Chapter are set out in the notices of intended procurement and/or tender documents.

2. A procuring entity shall not seek or accept, in a manner that

would have the effect of precluding competition, advice that may be used in the preparation or adoption of any technical specification for a specific procurement from a person that may have a commercial interest in the procurement.

3. In prescribing technical specifications for the goods or services being procured, a procuring entity shall, where appropriate:

(a) specify the technical specifications, in terms of performance and functional requirements, rather than design or descriptive standards; and

(b) base the technical specifications on international standards, where such exist; otherwise, on national technical regulations, recognised national standards or building codes.

4. Where design or descriptive characteristics are used in the technical specifications, a procuring entity shall, where appropriate, include words such as 'or equivalent' in the technical specifications and consider tenders that demonstrably meet the required design or descriptive characteristics and are fit for the purposes intended.

5. A procuring entity shall not prescribe technical specifications that require or refer to a particular trade mark or trade name, patent, copyright, design or type, specific origin, producer or supplier, unless there is no other sufficiently precise or intelligible way of describing the procurement requirements and provided that, in such cases, words such as 'as equivalent' are included in the tender documentation.

Article 174

Qualification of suppliers

1. For procurement covered by this Chapter, procuring entities shall ensure that any conditions and criteria for participating in a public contract award procedure are made known in advance in the notice of intended procurement or the tender documents. Any such conditions and criteria shall be limited to those which are essential to ensure that the potential supplier has the ability to execute the contract in question.

2. The Signatory CARIFORUM States and the United Kingdom shall not impose the condition that, in order for a supplier to participate in a procurement, the supplier has previously been awarded one or more contracts by an entity of that Party or State or that the supplier has prior work experience in the relevant territory. This paragraph does not apply for procurements in respect of social impact surveys and studies.

3. The procuring entity shall base its assessment of the financial, commercial and technical abilities of a supplier on the conditions that it has specified in advance in notices or tender documentation.

4. Nothing in this Article shall preclude the exclusion of any supplier on grounds such as bankruptcy or false declarations or conviction for serious crime.

5. Procuring entities may maintain a multi-use list provided that a notice inviting interested suppliers to apply for inclusion on the list is:

(a) published annually; and

(b) where published by electronic means, made available continuously in one of the appropriate media listed in Annex VII.

6. Procuring entities shall ensure that suppliers may apply for qualification at any time through the publication of a notice inviting suppliers to apply for inclusion on the list containing the following information:

(a) a description of the goods and services, or categories thereof, for which the list may be used;

(b) the conditions for participation to be satisfied by suppliers and the methods that the procuring entity will use to verify a supplier's satisfaction of the conditions;

(c) the name and address of the procuring entity and other information necessary to contact the entity and obtain all relevant documents relating to the list; and

(d) the period of validity of the list and the means for its renewal or termination, or where the period of validity is not provided, an indication of the method by which notice will be given of the termination of use of the list.

Procuring entities shall include in the list all qualified suppliers within a reasonably short time.

7. Where a non-qualified supplier submits a request for participation, and all required documents relating thereto, within the time-limit, a procuring entity, whether or not it uses a multi-use list, shall examine and accept the supplier's request for participation, unless, due to the complexity of the procurement, the entity is not able to complete the examination of the request. Procuring entities shall also ensure that a supplier having requested to be included in the list shall be informed of the decision in this regard in a timely fashion.

8. Procuring entities operating in the utilities may use a notice inviting suppliers to apply for inclusion on a multi-use list as a notice of intended procurement and may exclude requests for participation from suppliers not yet qualified in respect of the procurement on the grounds that the procuring entity has insufficient time to examine the application.

Article 175

Negotiations

1. The Signatory CARIFORUM States and the United Kingdom may provide for their procuring entities to conduct negotiations:

(a) in the context of procurements in which they have indicated such intent in the notice of intended procurement; or

(b) where it appears from the evaluation that no one tender is obviously the most advantageous in terms of the specific evaluation criteria set forth in the notice of intended procurement or tender documentation.

2. A procuring entity shall:

(a) ensure that any elimination of suppliers in negotiations is carried out in accordance with the evaluation criteria set out in the notice of intended procurement or tender documentation; and

(b) when negotiations are concluded, provide a common deadline for the remaining suppliers to submit any new or revised tenders.

1502—*Continued*

Article 176

Opening of tenders and awarding of contracts

1. All tenders solicited under open or selective procedures by procuring entities shall be received and opened under procedures

and conditions guaranteeing the fairness and transparency of the process.

2. Unless a procuring entity decides that it is not in the public interest to award the contract, it shall award the contract to the supplier who has been determined, on the basis of the information presented, to be fully capable of undertaking the contract and whose tender is either the lowest tender or the tender which in terms of the specific evaluation criteria set forth in the notice or tender documentation is determined to be the most advantageous. Awards shall be made in accordance with the criteria and essential requirements specified in the notice of intended procurement or in the tender documentation.

Article 177

Information on contract award

1. The Parties and the Signatory CARIFORUM States shall ensure that their procuring entities provide for effective dissemination of the results of government procurement processes.

2. Procuring entities shall promptly inform suppliers of decisions regarding the award of the contract and, on request in writing. Upon request, procuring entities shall inform any eliminated supplier of the reasons for the rejection of its tender and of the relative advantages of the successful supplier's tender.

3. Procuring entities may decide to withhold certain information on the contract award where release of such information would interfere with law enforcement or be otherwise contrary to the public interest, would prejudice the legitimate commercial interests of suppliers, or might prejudice fair competition between them.

4. Subject to Article 180(4), no later than 72 days after the award of each contract covered by this Chapter, a procuring entity shall publish a notice in the appropriate paper or electronic media listed in Annex VII. Where only an electronic medium is used, the information shall remain readily accessible for a reasonable period of time. The notice shall include at least the following information:

(a) a description of the goods or services procured;

(b) the name and address of the procuring entity;

(c) the name and address of the successful supplier;

(d) the value of the successful tender or the highest and lowest offers taken into account in the award of the contract;

(e) the date of the award; and

(f) the type of procurement method used, and in cases where a limited tendering procedure was used, a description of the circumstances justifying the use of such procedure.

Article 178

Time limits

1. In determining any time limits to be applied to procurement covered by this Chapter, procuring entities shall, consistent with their own reasonable needs, take into account such factors as the complexity of the intended procurement and the normal time for transmitting tenders.

2. The Parties and the Signatory CARIFORUM States shall ensure that their procuring entities shall take due account of publication delays when setting the final date for receipt of tenders or of request for participation or for qualifying for the supplier's list. Such time limits, including any extension, shall be common for all interested or participating suppliers.

3. Procuring entities shall clearly set out the time limits applicable to any specific procurement in the notice of intended procurement and/or the tender documents.

Article 179

Bid challenges

1. The Parties and the Signatory CARIFORUM States shall provide transparent, timely, impartial and effective procedures enabling suppliers to challenge domestic measures implementing this Chapter in the context of procurements in which they have, or have had, a legitimate commercial interest. To this effect, each Party or Signatory CARIFORUM State shall establish, identify or designate at least one impartial administrative or judicial authority that is independent of its procuring entities to receive and review a challenge by a supplier arising in the context of covered procurement.

2. Each supplier shall be allowed a sufficient period of time to prepare and submit a challenge as from the time when the basis of the challenge becomes known or reasonably should have become known to the supplier. This paragraph does not preclude Parties or Signatory CARIFORUM States from requiring complainants to lodge their complaints within a reasonable period of time provided that duration of that period is made known in advance.

3. Procuring entities shall ensure their ability to respond to requests for a review by maintaining a reasonable record of each procurement covered under this Chapter.

4. Challenge procedures shall provide for effective rapid interim measures to correct breaches of the domestic measures implementing this Chapter.

1502—*Continued*

Article 180

Implementation period

1. In order for the Signatory CARIFORUM States to bring their measures into conformity with any specific procedural obligation of this Chapter, they shall have an implementation period of two years from the entry into force of this Agreement.

2. Should a review by the CARIFORUM-UK Trade and Development Committee at the end of the implementation period reveal that one or several Signatory CARIFORUM States need one more year to bring their measures into conformity with the obligations of this Chapter, the CARIFORUM-UK Trade and Development Committee may extend the implementation period referred to in paragraph 1 by one more year for the individual Signatory CARIFORUM States concerned.

3. By way of derogation from paragraphs 1 and 2, Antigua and Barbuda, Belize, the Commonwealth of Dominica, Grenada, the Republic of Haiti, Saint Christopher and Nevis, Saint Lucia and Saint Vincent and the Grenadines shall benefit from an implementation period of five years.

4. The requirements stipulated in paragraph 1 and the last sentence of paragraph 2 of Article 168, in Article 170(1)(a) and in Article 177(4) will only come into effect for the Signatory CARIFORUM States once the requisite capacity to implement them has been developed, but not later than five years after the entry into force of this Agreement.

Article 181

Review clause

The CARIFORUM-UK Trade and Development Committee will review the operation of this Chapter every three years, including with regard to any modifications of coverage, and may make appropriate recommendations to the Joint CARIFORUM-UK Council to that effect, as appropriate. In carrying out this task, the CARIFORUM-UK Trade and Development Committee may, without prejudice to Article 182, also make appropriate recommendations regarding the Parties' further cooperation in the procurement field and the implementation of this Chapter.

Article 182

Cooperation

1. The Parties recognise the importance of cooperating in order to facilitate implementation of commitments and to achieve the objectives of this Chapter.

2. Subject to the provisions of Article 7, the Parties agree to cooperate, including by facilitating support and establishing appropriate contact points, in the following areas:

(a) Exchange of experience and information about best practices and regulatory frameworks;

(b) Establishment and maintenance of appropriate systems and mechanisms to facilitate compliance with the obligations of this Chapter; and

(c) Creation of an on-line facility at the regional level for the effective dissemination of information on tendering opportunities, so as to facilitate the awareness of all companies about procurement processes.

CHAPTER 4

Environment

Article 183

Objectives and sustainable development context

1. The Parties reaffirm that the principles of sustainable management of natural resources and the environment are to be applied and integrated at every level of their partnership, as part of their overriding commitment to sustainable development as set out in Articles 1, 2 and 3 of this Agreement.

2. The Parties recall the importance of environment and natural resources as thematic and cross-cutting issues, and that the fundamental principles of ownership, participation, dialogue and differentiation are therefore particularly relevant.

3. The Parties and the Signatory CARIFORUM States are resolved to conserve, protect and improve the environment, including through multilateral and regional environmental agreements to which they are parties.

4. The Parties reaffirm their commitment to promoting the development of international trade in such a way as to ensure sustainable and sound management of the environment, in accordance with their undertakings in this area including the international conventions to which they are party and with due regard to their respective level of development.

5. The Parties and the Signatory CARIFORUM States are resolved to make efforts to facilitate trade in goods and services which the Parties consider to be beneficial to the environment. Such products may include environmental technologies, renewable- and energy-efficient goods and services and eco-labelled goods.

1502—*Continued*

Article 184

Levels of protection and right to regulate

1. Recognising the right of the Parties and the Signatory CARIFORUM States to regulate in order to achieve their own level of domestic environmental and public health protection and their own sustainable development priorities, and to adopt or modify accordingly their environmental laws and policies, each Party and Signatory CARIFORUM State shall seek to ensure that its own environmental and public health laws and policies provide for and encourage high levels of environmental and public health protection and shall strive to continue to improve those laws and policies.

2. The Parties agree that the special needs and requirements of CARIFORUM States shall be taken into account in the design and implementation of measures aimed at protecting environment and public health that affect trade between the Parties.

3. Provided that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination between the Parties or a disguised restriction on trade between them, nothing in this Agreement shall be construed to prevent any Party and the Signatory CARIFORUM States from adopting or maintaining measures necessary to protect human, animal or plant life or health, related to the conservation of natural resources or protection of the environment.

Article 185

Regional integration and use of international environmental standards

In the light of the environmental challenges facing their respective regions, and in order to promote the development of international trade in such a way as to ensure sustainable and sound management of the environment, the Parties recognise the importance of establishing effective strategies and measures at the regional level. The Parties agree that in the absence of relevant environmental standards in national or regional legislation, they shall seek to adopt and implement the relevant international standards, guidelines or recommendations, where practical and appropriate.

Article 186

Scientific information

The Parties recognise the importance, when preparing and implementing measures aimed at protecting the environment and public health that affect trade between the Parties, of taking account of scientific and technical information, the precautionary principle, and relevant international standards, guidelines or recommendations.

Article 187

Transparency

The Parties and the Signatory CARIFORUM States commit to developing, introducing and implementing any measures aimed at protecting the environment and public health that affect trade between the Parties in a transparent manner, with due notice and public and mutual consultation and with appropriate and timely communication to and consultation of non-state actors including the private sector. The Parties agree that satisfying the provisions on transparency included in Chapters 6 and 7 of Title I shall be deemed to satisfy the provisions of this Article as well.

Article 188

Upholding levels of protection

1. Subject to Article 184(1), the Parties agree not to encourage trade or foreign direct investment to enhance or maintain a competitive advantage by:

(a) lowering the level of protection provided by domestic environmental and public health legislation;

(b) derogating from, or failing to apply such legislation.

2. The Parties and the Signatory CARIFORUM States commit to not adopting or applying regional or national trade or investment-related legislation or other related administrative measures as the case may be in a way which has the effect of frustrating measures intended to benefit, protect or conserve the environment or natural resources or to protect public health.

Article 189

Consultation and monitoring process

1. The Parties recognise the importance of monitoring and assessing the impact of implementation of the Agreement on sustainable development through their respective participative processes and institutions, as well as those set up under this Agreement.

2. The Parties may consult each other and the CARIFORUM-UK Consultative Committee on environmental issues covered by Articles 183 to 188. Members of the CARIFORUM-UK Consultative Committee may submit oral or written recommendations to the Parties for disseminating and sharing best practice relating to issues covered by this Chapter.

3. On any issue covered by Articles 183 to 188 the Parties may agree to seek advice from the relevant international bodies on best practice, the use of effective policy tools for addressing trade-related environmental challenges, and the identification of

any obstacles that may prevent the effective implementation of environmental standards under relevant Multilateral Environment Agreements.

4. A Party may request consultations with the other Party on matters concerning the interpretation and application of Articles 183 to 188. The consultations shall not exceed three months. In the context of this procedure any Party may independently seek advice from the relevant international bodies. In this case the limit for the period of consultations is extended by a further period of three months.

5. If the matter has not been satisfactorily resolved through consultations between the Parties pursuant to paragraph 3 any Party may request that a Committee of Experts be convened to examine such matter.

6. The Committee of Experts shall comprise three members with specific expertise in the issues covered by this Chapter. The Chairperson shall not be a national of either Party. The Committee of Experts shall present to the Parties a report within three months of its composition. The report shall be made available to the CARIFORUM-UK Consultative Committee.

Article 190

Cooperation

1. The Parties recognise the importance of cooperating on environmental issues in order to achieve the objectives of this Agreement.

2. Subject to the provisions of Article 7, the Parties agree to cooperate, including by facilitating support in the following areas:

(a) technical assistance to producers in meeting relevant product and other standards applicable in the United Kingdom market;

(b) promotion and facilitation of private and public voluntary and market-based schemes including relevant labelling and accreditation schemes;

(c) technical assistance and capacity building, in particular to the public sector, in the implementation and enforcement of multilateral environmental agreements, including with respect to trade-related aspects;

(d) facilitation of trade between the Parties in natural resources, including timber and wood products, from legal and sustainable sources;

(e) assistance to producers to develop and/or improve production of goods and services, which the Parties consider to be beneficial to the environment; and

(f) promotion and facilitation of public awareness and education programmes in respect of environmental goods and services in order to foster trade in such products between the Parties.

CHAPTER 5

Social aspects

Article 191

Objectives and multilateral commitments

1. The Parties reaffirm their commitment to the internationally recognised core labour standards, as defined by the relevant ILO Conventions, and in particular the freedom of association and the right to collective bargaining, the abolition of forced labour, the elimination of the worst forms of child labour and non-discrimination in respect to employment. The Parties also reaffirm their obligations as members of the ILO and their commitments under the ILO Declaration on Fundamental Principles and Rights at Work and its Follow-Up (1998).

2. The Parties reaffirm their commitment to the 2006 Ministerial declaration by the UN Economic and Social Council on Full Employment and Decent Work, promoting the development of international trade in a way that is conducive to full and productive employment and decent work for all, including men, women and young people.

3. The Parties recognise the beneficial role that core labour standards and decent work can have on economic efficiency, innovation and productivity, and they highlight the value of greater policy coherence between trade policies, on the one hand, and employment and social policies on the other.

4. The Parties agree that labour standards should not be used for protectionist trade purposes.

5. The Parties recognise the benefits of commerce in fair and ethical trade products and the importance of facilitating such commerce between them.

Article 192

Levels of protection and right to regulate

Recognising the right of the Parties and the Signatory CARIFORUM States to regulate in order to establish their own social regulations and labour standards in line with their own social development priorities, and to adopt or modify accordingly their relevant laws and policies, each Party and Signatory CARIFORUM State shall ensure that its own social and labour regulations and policies provide for and encourage high levels of social and labour standards consistent with the internationally recognised rights set forth in Article 191 and shall strive to continue to improve those laws and policies.

1502—*Continued*

Article 193

Upholding levels of protection

Subject to Article 192, the Parties agree not to encourage trade or foreign direct investment to enhance or maintain a competitive advantage by:

(a) lowering the level of protection provided by domestic social and labour legislation;

(b) derogating from, or failing to apply such legislation and standards.

Article 194

Regional integration

In the light of the social challenges facing their respective regions, and in order to promote the sustainable development of international trade, the Parties recognise the importance of establishing social cohesion policies and measures to promote decent work at regional level.

Article 195

Consultation and monitoring process

1. In accordance with Article 191, the Parties recognise the importance of monitoring and assessing the operation of the Agreement on decent work and other areas of sustainable development through their respective participative processes and institutions, as well as those set up under this Agreement.

2. The Parties may consult each other and the CARIFORUM-UK Consultative Committee on social issues covered by Articles 191 to 194. Members of the CARIFORUM-UK Consultative Committee may submit oral or written recommendations to the Parties for disseminating and sharing best practice relating to issues covered by this Chapter.

3. On any issue covered by Articles 191 to 194 the Parties may agree to seek advice from the ILO on best practice, the use of effective policy tools for addressing trade-related social challenges, such as labour market adjustment, and the identification of any obstacles that may prevent the effective implementation of core labour standards.

4. A Party may request consultations with the other Party on matters concerning the interpretation and application of Articles 191 to 194. The consultations shall not exceed three months. In the context of this procedure any Party may independently seek advice from the ILO. In this case the limit for the period of consultations is extended by a further period of three months.

5. If the matter has not been satisfactorily resolved through consultations between the Parties pursuant to paragraph 3 any Party may request that a Committee of Experts be convened to examine such matter.

6. The Committee of Experts shall comprise three members with specific expertise in the issues covered by this Chapter. The Chairperson shall not be a national of either Party. The Committee of Experts shall present to the Parties a report within three months of its composition. The report shall be made available to the CARIFORUM-UK Consultative Committee.

Article 196

Cooperation

1. The Parties recognise the importance of cooperating on social and labour issues in order to achieve the objectives of this Agreement.

2. Subject to the provisions of Article 7, the Parties agree to cooperate, including by facilitating support, in the following areas:

(a) exchange of information on the respective social and labour legislation and related policies, regulations and other measures;

(b) the formulation of national social and labour legislation and the strengthening of existing legislation, as well as mechanisms for social dialogue, including measures aimed at promoting the Decent Work Agenda as defined by the ILO;

(c) educational and awareness-raising programmes, including skills training and policies for labour market adjustment, and raising awareness of health and safety responsibilities, workers' rights and employers' responsibilities; and

(d) enforcement of adherence to national legislation and work regulation, including training and capacity building initiatives of labour inspectors, and promoting corporate social responsibility through public information and reporting.

1502—*Continued*

CHAPTER 6

Protection of personal data

Article 197

General objective

1. The Parties and the Signatory CARIFORUM States, recognising:

(a) their common interest in protecting fundamental rights and freedoms of natural persons, and in particular their right to privacy, with respect to the processing of personal data,

(b) the importance of maintaining effective data protection regimes as a means of protecting the interests of consumers, stimulating investor confidence and of facilitating transborder flows of personal data;

(c) that the collection and processing of personal data should be accomplished in a transparent and fair manner, with due respect accorded to the data subject,

agree to establish appropriate legal and regulatory regimes, as well as appropriate administrative capacity to implement them, including independent supervisory authorities, in order to ensure an adequate level of protection of individuals with regard to the processing of personal data, in line with existing high international standards([1]).

2. The Signatory CARIFORUM States shall endeavour to implement the provisions of paragraph 1 as soon as possible and no later than seven years after the entry into force of this Agreement.

Article 198

Definitions

For the purposes of this Chapter:

(a) 'personal data' means any information relating to an identified or identifiable individual (data subject);

(b) 'processing of personal data' means any operation or set of operations which is performed upon personal data, such as collection, recording, organisation, storage, alteration, retrieval, consultation, use, disclosure, combination, blocking, erasure or destruction, as well as transfers of personal data across national borders;

(c) 'Data Controller' means the natural or legal person, authority or any other body which determines the purposes and means of the processing of personal data.

Article 199

Principles and general rules

The Parties agree that the legal and regulatory regimes and administrative capacity to be established shall, at a minimum, include the following content principles and enforcement mechanisms:

(a) Content principles

(i) the purpose limitation principle — data should be processed for a specific purpose and subsequently used or further communicated only in so far as this is not incompatible with the purpose of the transfer. The only exemptions to this rule would be those provided by legislation and necessary in a democratic society for important public interests;

(ii) the data quality and proportionality principle — data should be accurate and, where necessary, kept up to date. The data should be adequate, relevant and not excessive in relation to the purposes for which they are transferred or further processed;

(iii) the transparency principle — individuals should be provided with information as to the purpose of the processing and the identity of the data controller in the third country, and other information in so far as this is necessary to ensure fairness. The only exemptions permitted should be those provided by legislation and necessary in a democratic society for important public interests;

(iv) the security principle — technical and organisational security measures should be taken by the data controller that are appropriate to the risks presented by the processing. Any person acting under the authority of the data controller, including a processor, must not process data except on instructions from the controller;

(v) the rights of access, rectification and opposition — the data subject should have a right to obtain a copy of all data relating to him/her that are processed, and a right to rectification of those data where they are shown to be inaccurate. In certain situations he/she should also be able to object to the processing of the data relating to him/her. Scope

This Part shall apply to any dispute concerning the interpretation and application of this Agreement.

CHAPTER 1

Consultations and mediation

Article 204

Consultations

1. The Parties shall endeavour to resolve any dispute referred to in Article 203 by entering into consultations in good faith with the aim of reaching an agreed solution.

2. A Party shall seek consultations by means of a written request to the other Party, copied to the CARIFORUM-UK Trade and Development Committee, identifying the measure at issue and the provisions of the Agreement that it considers the measure not to be in conformity with.

3. Consultations shall be held within 40 days of the date of the submission of the request. The consultations shall be deemed concluded within 60 days of the date of the submission of the request, unless both Parties agree to continue consultations. All information disclosed during the consultations shall remain confidential.

4. Consultations on matters of urgency, including those regarding perishable or seasonal goods shall be held within 15 days of the date of the submission of the request, and shall be deemed concluded within 30 days of the date of the submission of the request.

5. If consultations are not held within the timeframes laid down in paragraph 3 or in paragraph 4 respectively, or if consultations have been concluded and no agreement has been reached on a mutually agreed solution, the complaining Party may request the establishment of an arbitration panel in accordance with Article 206.

6. A Party shall not bring a dispute under this Part concerning the interpretation and application of Chapters 4 and 5 of Title IV unless the procedures of Article 189(3), (4) and (5) and Article 195(3), (4) and (5), respectively have been invoked and the matter has not been satisfactorily resolved within 9 months of the initiation of the consultations. Consultations pursuant to those provisions shall replace those which would have been required under this Article.

Article 205

Mediation

1. If consultations fail to produce a mutually agreed solution, the Parties may, by agreement, seek recourse to a mediator. Unless the Parties agree otherwise, the terms of reference for the mediation shall be the matter referred to in the request for consultations.

2. Unless the Parties agree on a mediator within 15 days of the date of the agreement to request mediation, the Chairperson of the CARIFORUM-UK Trade and Development Committee, or his or her delegate, shall select by lot a mediator from the pool of individuals who are on the list referred to in Article 221 and are not nationals of either Party. The selection shall be made within 25 days of the date of the submission of the agreement to request mediation and in the presence of a representative of each Party. The mediator will convene a meeting with the Parties no later than 30 days after being selected. The mediator shall receive the submissions of each Party no later than 15 days before the meeting and notify an opinion no later than 45 days after having been selected.

3. The mediator's opinion may include a recommendation on how to resolve the dispute consistent with the provisions of this Agreement. The mediator's opinion is non-binding.

4. The Parties may agree to amend the time limits referred to in paragraph 2. The mediator may also decide to amend these time limits upon request of any of the Parties or on his own initiative, given the particular difficulties experienced by the Party concerned or the complexities of the case.

5. The proceedings involving mediation, in particular all information disclosed and positions taken by the Parties during these proceedings shall remain confidential.

3. In the event that the Parties are unable to agree on its composition within the time frame laid down in paragraph 2, either Party may request the Chairperson of the CARIFORUM-UK Trade and Development Committee, or her or his delegate, to select all three members by lot from the list established under Article 221, one among the individuals proposed by the complaining Party, one among the individuals proposed by the Party complained against and one among the individuals selected by the Parties to act as Chairperson. Where the Parties agree on one or more of the members of the arbitration panel, any remaining members shall be selected by the same procedure.

4. In the event of a dispute concerning the interpretation and application of Chapters 4 and 5 of Title IV the panel shall comprise at least two members with specific expertise on the matters covered by that Chapter drawn from a list of 15 persons established by the CARIFORUM-UK Trade and Development Committee as provided for under Article 221.

5. The Chairperson of the CARIFORUM-UK Trade and Development Committee, or her or his delegate, shall select the arbitrators within five days of the request referred to in paragraph 3 by either Party and in the presence of a representative of each Party.

Under no circumstances should the ruling be notified later than 180 days from the date of the establishment of the arbitration panel.

2. In cases of urgency, including those involving perishable and seasonal goods, the arbitration panel shall make every effort to notify its ruling within 75 days from the date of its establishment. Under no circumstance should it take longer than 90 days from its establishment. The arbitration panel may give a preliminary ruling within 10 days of its establishment on whether it deems the case to be urgent.

3. Either party may request the arbitration panel to provide a recommendation as to how the Party complained against could bring itself into compliance. In the event of a dispute concerning the interpretation and application of Chapters 4 or 5 of Title IV the arbitration panel shall include a recommendation on how to ensure compliance with the relevant provisions of these Chapters.

Section 2

Compliance

Each Party shall take any measure necessary to comply with the arbitration panel ruling, and the Parties will endeavour to agree on the period of time to comply with the ruling.

1502—*Continued*

Article 211

The reasonable period of time for compliance

1. No later than 30 days after the notification of the arbitration panel ruling to the Parties, the Party complained against shall notify the complaining Party and the CARIFORUM-UK Trade and Development Committee of the time it will require for compliance (reasonable periodof time).

2. If there is disagreement between the Parties on the reasonable period of time to comply with the arbitration panel ruling, the complaining Party shall, within 20 days of the notification made under paragraph 1, request in writing the arbitration panel to determine the length of the reasonable period of time. Such request shall be notified simultaneously to the other Party and to the CARIFORUM-UK Trade and Development Committee. The arbitration panel shall notify its ruling to the Parties and to the CARIFORUM-UK Trade and Development Committee within 30 days from the date of the submission of the request.

3. The arbitration panel shall, in determining the length of the reasonable period of time, take into consideration the length of time that it will normally take the Party complained against to adopt comparable legislative or administrative measures to those identified by such Party as being necessary to ensure compliance. The arbitration panel shall also take into consideration demonstrable capacity constraints which may affect the adoption of the necessary measures by the Party complained against.

4. In the event of the original arbitration panel, or some of its members, being unable to reconvene, the procedures set out in Article 207 shall apply. The time limit for notifying the ruling shall be 45 days from the date of the submission of the request referred to in paragraph 2.

5. The reasonable period of time may be extended by agreement of the Parties.

Article 212

Review of any measure taken to comply with the arbitration panel ruling

1. The Party complained against shall notify the other Party and the CARIFORUM-UK Trade and Development Committee before the end of the reasonable period of time of any measure that it has taken to comply with the arbitration panel ruling.

2. In the event that there is disagreement between the Parties concerning the compatibility of any measure notified under paragraph 1, with the provisions of this Agreement, the complaining Party may request in writing the arbitration panel to rule on the matter. Such request shall identify the specific measure at issue and it shall explain how such measure is incompatible with the provisions of this Agreement. The arbitration panel shall notify its ruling within 90 days of the date of the submission of the request. In cases of urgency, including those involving perishable and seasonal goods, the arbitration panel shall notify its ruling within 45 days of the date of the submission of the request.

3. In the event of the original arbitration panel, or some of its members, being unable to reconvene, the procedures set out in Article 207 shall apply. The time limit for notifying the ruling shall be 105 days from the date of the submission of the request referred to in paragraph 2.

Article 213

Temporary remedies in case of non-compliance

1. If the Party concerned fails to notify any measure taken to comply with the arbitration panel ruling before the expiry of the reasonable period of time, or if the arbitration panel rules that the measure notified under Article 212(1) is not compatible with that Party's obligations under the provisions of this Agreement, the Party complained against shall, if so requested by the complaining Party, present an offer for compensation. Nothing in the Agreement shall require the Party complained against to offer financial compensation.

2. If no agreement on compensation is reached within 30 days of the end of the reasonable period of time or of the arbitration panel's ruling under Article 212 that a measure taken to comply is not compatible with the provisions of this Agreement, the complaining Party shall be entitled, upon notification to the other Party, to adopt appropriate measures. In adopting such measures the complaining Party shall endeavour to select measures that least affect the attainment of the objectives of this Agreement and shall take into consideration their impact on the economy of the Party complained against and on the individual CARIFORUM States. In addition, where the United Kingdom has obtained the right to adopt such measures, it shall select measures which are specifically aimed at bringing into compliance the CARIFORUM State or States whose measures were found to be in breach of this Agreement. The other CARIFORUM States shall facilitate the adoption of measures to comply with the arbitration panel ruling by the CARIFORUM State or States found to be in breach. In cases involving a dispute under Chapter 4 and 5 of Title IV, appropriate measures shall not include the suspension of trade concessions under this Agreement. The complaining Party may adopt the appropriate measures 10 days after the date of the notification.

3. The United Kingdom shall exercise due restraint in asking for compensation or adopting appropriate measures pursuant to paragraphs 1 or 2.

4. Compensation or appropriate measures shall be temporary and shall be applied only until any measure found to violate the provisions of this Agreement has been withdrawn or amended so as to bring it into conformity with those provisions or until the Parties have agreed to settle the dispute.

Article 214

Review of any measure taken to comply after the adoption of appropriate measures

1. The Party complained against shall notify the other Party and the CARIFORUM-UK Trade and Development Committee of

any measure it has taken to comply with the ruling of the arbitration panel and of its request for an end to application of appropriate measures by the complaining Party.

2. If the Parties do not reach an agreement on the compatibility of the notified measure with the provisions of this Agreement within 30 days of the date of the submission of the notification, the complaining Party shall request in writing the arbitration panel to rule on the matter. Such request shall be notified to the other Party and to the CARIFORUM-UK Trade and Development Committee. The arbitration panel ruling shall be notified to the Parties and to the CARIFORUM-UK Trade and Development Committee within 45 days of the date of the submission of the request. If the arbitration panel rules that any measure taken to comply is not in conformity with the provisions of this Agreement, the arbitration panel will determine whether the complaining Party can continue to apply appropriate measures. If the arbitration panel rules that any measure taken to comply is in conformity with the provisions of this Agreement, the appropriate measures shall be terminated.

3. In the event of the original arbitration panel, or some of its members, being unable to reconvene, the procedures laid down in Article 207 shall apply. The period for notifying the ruling shall be 60 days from the date of the submission of the request referred to in paragraph 2.

ANNEX IV F

LIST OF COMMITMENTS IN SERVICES SECTORS

(referred to in Articles 69, 78, 81 and 83)

CARIFORUM PARTY AND SIGNATORY CARIFORUM STATES

1. This 'List of Commitments in Services Sectors' (hereinafter referred to as the 'Schedule') is based on the UN Central Product Classification (CPC) list and the services sectoral classification list (MTN.GNS/W/120) used in GATS negotiations but also includes some service activities not covered by these classification schemes. The inclusion of two asterisks (**) indicates that the services specified constitute only a part of the total range of activities covered by the CPC concordance.

2. This Schedule is consistent with the GATS scheduling template and includes only those service activities in which the Signatory CARIFORUM States are undertaking commitments. With respect to market access and national treatment commitments, the different modes of supply are indicated by the following numbers:

   (1) Supply from the territory of a Party into the territory of the other Party (Mode 1);

   (2) Supply in the territory of a Party to the service consumer of the other Party (Mode 2);

   (3) Supply through commercial presence (Mode 3);

   (4) Supply through the presence of natural persons (Mode 4).

3. With regard to the categories of natural persons listed in Chapter 4 of Title II the following should be noted:

   Key Personnel and Graduate Trainees — where there is a commitment in Mode 3 there is an automatic commitment regarding temporary entry for these categories of persons, subject to an economic needs test, unless otherwise indicated.

   Contractual service suppliers (CSS) and independent professionals (IP) — commitments are undertaken only where specifically indicated in the Schedule by CSS or IP. Where a commitment on contractual service suppliers or independent professionals is included in this Schedule it is subject to the conditions stipulated in Article 83, unless otherwise stated.

4. Where there is an indication of 'None' for Mode 4 it means that there are no limitations or restrictions for all categories of natural persons except contractual service suppliers and independent professionals.

5. In those sectors in which economic needs tests (ENTs) are applied for Mode 4, the main criterion will be availability of persons with the requisite skills in the local labour market. With regard to other modes of supply, the main criteria for ENTs will be the assessment of the relevant market situation where the service is to be provided, with respect to the number of, and the impact on, existing service suppliers.

6. This Schedule includes all CARIFORUM States, except Haiti, unless otherwise stated.

7. Subject to Article 238, the commitments listed in this Schedule apply only to the relations between the Signatory CARIFORUM States on the one hand and the United Kingdom on the other and do not affect the rights and obligations of the Signatory CARIFORUM States arising from obligations under the Revised Treaty of Chaguaramas Establishing the Caribbean Community including the CARICOM Single Market and Economy, the Revised Treaty of Basseterre establishing the Organisation of Eastern Caribbean States Economic Union, or the CARICOM-Dominican Republic Free Trade Agreement.

8. This Schedule of commitments cannot be construed as offering in any way the privatisation of public undertakings nor as preventing any Signatory CARIFORUM State from regulating any sector or economic activity in order to meet national policy objectives.

9. With regard to the economic activities covered in Chapters 2 and 3 of Title II, other than public services, without prejudice to the content of the list of commitments on commercial presence and on cross-border supply in this Annex, the Signatory CARIFORUM States shall maintain the conditions of market access and national treatment in the meaning of Articles 67 and 68, and Articles 76 and 77 applicable according to their respective legislation to services, service suppliers, investors and commercial presences of the EC Party at the time of the signature of this Agreement.

1502—*Continued*

10. The Schedule of commitments may not include measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures when they do not constitute a market access or a national treatment limitation within the meaning of Articles 67 and 68, and 76 and 77 of the Agreement. Those measures (e.g. need to obtain a license, need to register with the Registrar of Companies, universal service obligations, need to obtain recognition of qualifications in regulated sectors, need to pass specific examinations, including language examinations, non-discriminatory requirement that certain activities may not be carried out in environmental protected zones or areas of particular historic and artistic interest), even if not listed, apply in any case to service suppliers of the other Party.

11. The rights and obligations arising from this Schedule of commitments shall have no self-executing effect and thus confer no rights directly to natural persons or juridical persons.

3. The Party complained against shall be in charge of the logistical administration of dispute settlement proceedings, in particular the organisation of hearings, unless otherwise agreed.

5. The Parties shall exchange a list of dates of their official holidays and rest days on the first Monday of every December for the following year. If a period referred to in these Rules of Procedure ends on an official holiday or rest day of either of the Parties, the period shall be deemed to expire on the next business day. No documents, notifications or requests of any kind shall be deemed to be received on an official holiday or rest day.

Article 2
Notifications

1. The Parties and the arbitration panel shall transmit any request, notice, written submission or other document by e-mail, with a copy submitted on the same day by facsimile transmission, registered post, courier, delivery against receipt or any other means of telecommunication that provides a record of the sending thereof. 2. A Party shall provide an electronic copy of each of its written submissions to the other Party and to each of the arbitrators. A paper copy shall also be provided.

3. The designated point of contact for all notifications for the CARIFORUM States shall be the CARIFORUM Coordinator, provided for under Article 234(1) of the Agreement, and for the United Kingdom shall be the Department for International Trade of the United Kingdom, or its successor. [2] It is understood that the remuneration of officials, representatives or advisers of any Party involved in the organisation of the hearings shall not form part of the expenses deriving from organisational matters.

1502—*Continued*

Article 3
Commencing the arbitration

1. Unless the Parties agree otherwise, they shall meet the arbitration panel within 10 days of its establishment in order to determine such matters that the Parties or the arbitration panel deem appropriate, including the remuneration and expenses to be paid to the arbitrators, which shall be in accordance with WTO standards. Members of the arbitration panel and representatives of the Parties may take part in this meeting via telephone or video conference.

2. (a) Unless the Parties agree otherwise, within seven days from the date of the establishment of the panel, the terms of reference of the arbitration panel shall be:

"to examine, in the light of the relevant provisions of the Agreement, the matter referred to in the request for establishment of the arbitration panel, to rule on the compatibility of the measure in question with the provisions of the Agreement identified in the Request for Establishment and to make a ruling in accordance with Article 209 of the Agreement."

(b) The Parties shall notify the agreed terms of reference to the arbitration panel within five days of their agreement.

Article 4
Initial submissions

The complaining Party shall deliver its initial written submission no later than 20 days after the date of establishment of the arbitration panel. The Party complained against shall deliver its written counter-submission no later than 20 days after the date of delivery of the initial written submission.

Article 5
Operation of arbitration panels

1. The chairperson of the arbitration panel shall preside at all its meetings. An arbitration panel may delegate to the chairperson authority to make administrative and procedural decisions.

2. Unless otherwise provided, the arbitration panel may conduct its activities by any means, including telephone, facsimile transmissions or computer links.

3. Only arbitrators may take part in the deliberations of the arbitration panel, but the arbitration panel may permit its assistants to be present at its deliberations.

4. The drafting of any ruling shall remain the exclusive responsibility of the arbitration panel and shall not be delegated.

5. Where a procedural question arises that is not covered by the provisions of the Agreement or these Rules, the arbitration panel, after consulting the Parties, may adopt an appropriate procedure compatible with the Agreement and these Rules, which ensures an equal treatment of the Parties.

6. When the arbitration panel considers that there is a need to modify any time limit applicable in the proceedings or to make any other procedural or administrative adjustment, it shall inform the Parties in writing of the reasons for the modification or adjustment and of the period or adjustment needed. The arbitration panel may adopt such modification or adjustment after consulting the Parties. The time limits in Article 209 of the Agreement shall not be modified.

Article 6
Replacement

1. If an arbitrator is unable to participate in the proceeding, withdraws, or must be replaced, a replacement shall be selected in accordance with Article 207(3) of the Agreement.

2. Where a Party considers that an arbitrator does not comply with the requirements of the Code of Conduct for Arbitrators and Mediators (hereinafter the 'Code of Conduct') and for this reason should be replaced, that Party should notify the other Party within 15 days from the time at which it came to know of the circumstances underlying the arbitrator's material violation of the Code of Conduct.

Where a Party considers that an arbitrator other than the chairperson does not comply with the requirements of the Code of Conduct, the Parties shall consult and, if they so agree, shall dismiss the arbitrator and select a replacement following the procedure set out in Article 207(3) of the Agreement.

If the Parties fail to agree on the need to replace an arbitrator, any Party may request that such matter be referred to the chairperson of the arbitration panel, whose decision shall be final.

If the chairperson finds that an arbitrator does not comply with the requirements of the Code of Conduct, she or he shall select a new arbitrator by lot from the list of individuals referred to under Article 221 of the Agreement in

which the original arbitrator appeared. If the original arbitrator was chosen by the Parties pursuant to Article 207(2) of the Agreement, the replacement shall be selected by lot from the lists of individuals that have been proposed by the complaining Party and by the Party complained against under Article 221 of the Agreement. The selection of the new arbitrator shall be made within five days of the date of submission of the request to the chairperson of the arbitration panel.

3. Where a Party considers that the chairperson of the arbitration panel does not comply with the requirements of the Code of Conduct, the Parties shall consult and, if they so agree, replace the chairperson and select a replacement following the procedure set out in Article 207(3) of the Agreement.

If the Parties fail to agree on the need to replace the chairperson, any Party may request that such matter be referred to one of the remaining members of the list of individuals selected to act as chairperson under Article 221(1) of the Agreement. Her or his name shall be drawn by lot by the chairperson of the CARIFORUM-UK Trade and Development Committee, or the chairperson's delegate. The decision by that person on the need to replace the chairperson shall be final.

If that person decides that the original chairperson does not comply with the requirements of the Code of Conduct, she or he shall select a new chairperson by lot from the remaining list of individuals referred to under Article 221(1) of the Agreement who may act as chairpersons. This selection of the new chairperson shall be made within five days of the date of submission of the request referred to in this paragraph.

4. The arbitration panel proceedings shall be suspended for the period taken to carry out the procedures provided for in this Article.

Article 7
Hearings

1. The chairperson shall fix the date and time of the hearing in consultation with the Parties and the other members of the arbitration panel, and confirm this in writing to the Parties. This information shall also be made publicly available by the Party in charge of the logistical administration of the proceedings if the hearing is open to the public. Unless a Party disagrees, the arbitration panel may decide not to convene a hearing.

2. Unless the Parties agree otherwise, the hearing shall be held in London if the complaining Party is the CARIFORUM States and in the territories of the CARIFORUM States if the complaining Party is the United Kingdom. If the dispute concerns a measure maintained by a Signatory CARIFORUM State, the hearing shall take place in the territory of that State unless the State gives written notice to the panel within 10 days of its establishment that another venue should be used.

3. The arbitration panel may convene one additional hearing only in exceptional circumstances. No additional hearing shall be convened for the procedures established under Articles 211(2), 212(2) and 214(2) of the Agreement.

However, the arbitration panel shall meet in closed session when the submission and arguments of a Party contain confidential commercial information. The panel shall, in consultation with the Parties, decide on appropriate logistical arrangements and procedures to ensure that hearings which are open are managed in an effective way. These procedures could include the use of live web-broadcasting or of closed-circuit television.

Article 9
Confidentiality

The Parties shall maintain the confidentiality of the arbitration panel hearings where the hearings are held in closed session, in accordance with Article 7(7) of these Rules. Each Party shall treat as confidential any information submitted by the other Party to the arbitration panel which that Party has designated as confidential. Where a Party submits a confidential version of its written submissions to the arbitration panel, it shall also, upon request of the other Party, provide a non-confidential summary of the information contained in its submissions that could be disclosed to the public no later than 15 days after the date of either the request or the submission, whichever is later. Nothing in these Rules shall preclude a Party from disclosing statements of its own positions to the public.

Article 10

1. The arbitration panel shall not meet or contact a Party in the absence of the other Party.

2. No member of the arbitration panel may discuss any aspect of the subject matter of the proceedings with one Party or both Parties in the absence of the other arbitrators.

2. The submission shall contain a description of the person making the submission, whether natural or legal, including the nature of that person's activities and the source of that person's financing, and specify the nature of the interest that the person has in the arbitration proceeding. It shall be drafted in the languages chosen by the Parties in accordance with Article 218 of the Agreement and Article 14 of these Rules of Procedure.

3. The arbitration panel shall list in its ruling all the submissions it has received that conform to the requirements in paragraphs 1 and 2. The arbitration panel shall not be obliged to address in its ruling the arguments made in such submissions. Any submission obtained by the arbitration panel under this rule shall be submitted to the Parties for their comments.

1. For the purpose of 'the Agreement', the following products shall be considered as originating in the United Kingdom:

(a) products wholly obtained in the United Kingdom within the meaning of Article 6 of this Protocol;

(b) products obtained in the United Kingdom incorporating materials which have not been wholly obtained there, provided that such materials have undergone sufficient working or processing in the United Kingdom within the meaning of Article 7.

Originating products made up of materials wholly obtained or sufficiently worked or processed in two or more CARIFORUM States shall be considered as products originating in the CARIFORUM State where the last working or processing took place, provided the working or processing carried out there goes beyond that referred to in Article 8 of this Protocol.

Article 3

1502—*Continued*

1. For the purpose of Article 2(1), materials originating in the CARIFORUM States, in the EU, in the OCTs or in the other ACP States shall be considered as materials originating in the United Kingdom when incorporated into a product obtained there. It shall not be necessary that such materials have undergone sufficient working or processing, provided they have undergone working or processing going beyond that referred to in Article 8.

2. For the purpose of Article 2(1), working and processing carried out in the CARIFORUM States, in the EU, in the OCTs or in the other ACP States shall be considered as having been carried out in the United Kingdom, when the materials undergo subsequent working or processing in the United Kingdom going beyond that referred to in Article 8.

(a) the countries involved in the acquisition of the originating status and the country of destination have concluded an agreement on administrative cooperation which ensures a correct implementation of this Article;

(b) materials and products have acquired originating status by the application of the rules of origin identical to those given in this Protocol;

(c) the United Kingdom provides the CARIFORUM States, with details of agreements on administrative cooperation with the other countries or territories referred to in this Article. Article 4

Cumulation in the CARIFORUM States

1. For the purpose of Article 2(2), materials originating in the United Kingdom, in the EU, in the OCTs or in the other ACP States shall be considered as materials originating in the CARIFORUM States when incorporated into a product obtained there. It shall not be necessary that such materials have undergone sufficient working or processing, provided they have undergone working or processing going beyond that referred to in Article 8.

2. For the purpose of Article 2(2), working and processing carried out in the United Kingdom, in the EU, in the OCTs or in the other ACP States shall be considered as having been carried out in the CARIFORUM States, when the materials undergo subsequent working or processing in the CARIFORUM States going beyond that referred to in Article 8.

Article 7

Sufficiently worked or processed products

1. For the purposes of Article 2, products which are not wholly obtained are considered to be sufficiently worked or processed when the conditions set out in the List in Annex II are fulfilled.

2. The conditions referred to in paragraph 1 above indicate, for all products covered by the Agreement, the working or processing which must be carried out on non-originating materials used in manufacturing and apply only in relation to such materials. Accordingly, it follows that if a product which has acquired originating status by fulfilling the conditions set out in the List is used in the manufacture of another product, the conditions applicable to the product in which it is incorporated do not apply to it, and no account shall be taken of the non-originating materials which may have been used in its manufacture.

3. Notwithstanding paragraph 1, non-originating materials which, according to the conditions set out in Annex II, should not be used in the manufacture of a given product may nevertheless be used, provided that:

(a) their total value does not exceed 15 % of the ex-works price of the product;

1502—*Continued*

(b) breaking-up and assembly of packages;

(c) washing, cleaning; removal of dust, oxide, oil, paint or other coverings;

(o) a combination of two or more operations specified in (a) to (n);

(p) slaughter of animals.

2. All operations carried out either in the United Kingdom or in the CARIFORUM States on a given product shall be considered together when determining whether the working or processing undergone by that product is to be regarded as insufficient within the meaning of paragraph 1.

Article 9

Unit of qualification

1. The unit of qualification for the application of the provisions of this Protocol shall be the particular product which is considered as the basic unit when determining classification using the nomenclature of the Harmonised System.

Accordingly, it follows that:

(a) when a product composed of a group or assembly of articles is classified under the terms of the Harmonised System in a single heading, the whole constitutes the unit of qualification;

(b) when a consignment consists of a number of identical products classified under the same heading of the Harmonised System, each product must be taken individually when applying the provisions of this Protocol.

2. Where, under General Rule 5 of the Harmonised System, packaging is included with the product for classification purposes, it shall be included for the purposes of determining origin.

Article 10

Accessories, spare parts and tools

Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle, which are part of the normal equipment and included in the price thereof or which are not separately invoiced, shall be regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

Article 11

Sets

Sets, as defined in General Rule 3 of the Harmonised System, shall be regarded as originating when all component products are originating. Nevertheless, when a set is composed of originating and non-originating products, the set as a whole shall be regarded as originating, provided that the value of the non-originating products does not exceed 15 % of the ex-works price of the set.

Article 12

Neutral elements

In order to determine whether a product is originating, it shall not be necessary to determine the origin of the following which might be used in its manufacture:

(a) energy and fuel;

(b) plant and equipment;

---

[1] This is understood to mean the reduction of the size of the sugar particles as a result of grinding or milling.

[2] For the purpose of applying this subparagraph and in relation to Article 7 (Sufficiently worked or processed products), the Parties agree that paragraph 2 of Article 8 means that the use of one or more materials already originating in the country of manufacture implies that a processing going beyond a minimal operation has already been carried out in that country of manufacture.

1502—*Continued*

(c) machines and tools;

1502—*Continued*

Where the box is not completely filled, a horizontal line must be drawn below the last line of the description, the empty space being crossed through.

3. The exporter applying for the issue of a movement certificate EUR.1 shall be prepared to submit at any time, at the request of the customs authorities of the exporting country where the movement certificate EUR.1 is issued, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Protocol.

4. A movement certificate EUR.1 shall be issued by the customs authorities of the United Kingdom or of a CARIFORUM State if the products concerned can be considered as products originating in the United Kingdom or in a CARIFORUM State or in one of the other countries or territories referred to in Articles 3, 4 and 5 and fulfil the other requirements of this Protocol.

5. The issuing customs authorities shall take any steps necessary to verify the originating status of the products and the fulfilment of the other requirements of this Protocol. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate. The issuing customs authorities shall also ensure that the forms referred to in paragraph 2 are duly completed. In particular, they shall check whether the space reserved for the description of the products has been completed in such a manner as to exclude all possibility of fraudulent additions.

6. The date of issue of the movement certificate EUR.1 shall be indicated in Box 11 of the certificate.

7. A movement certificate EUR.1 shall be issued by the customs authorities and made available to the exporter as soon as actual exportation has been effected or ensured.

Article 18

Movement certificates EUR.1 issued retrospectively

1. Notwithstanding Article 17(7), a movement certificate EUR.1 may exceptionally be issued after exportation of the products to which it relates if:

(a) it was not issued at the time of exportation because of errors or involuntary omissions or special circumstances; or

(b) it is demonstrated to the satisfaction of the customs authorities that a movement certificate EUR.1 was issued but was not accepted at importation for technical reasons.

1502—*Continued*

2. For the implementation of paragraph 1, the exporter must indicate in his application the place and date of exportation of the products to which the movement certificate EUR.1 relates, and state the reasons for his request.

3. The customs authorities may issue a movement certificate EUR.1 retrospectively only after verifying that the information supplied in the exporter's application agrees with that in the corresponding file.

4. Movement certificates EUR.1 issued retrospectively must be endorsed with the following phrase in English: 'ISSUED RETROSPECTIVELY'.

5. The endorsement referred to in paragraph 4 shall be inserted in the 'Remarks' box of the movement certificate EUR.1.

Article 19

Issue of a duplicate movement certificate EUR.1

1. In the event of theft, loss or destruction of a movement certificate EUR.1, the exporter may apply to the customs authorities which issued it for a duplicate made out on the basis of the export documents in their possession.

2. The duplicate issued in this way must be endorsed with the following word in English:

'DUPLICATE'.

3. The endorsement referred to in paragraph 2 shall be inserted in the 'Remarks' box of the duplicate movement certificate EUR.1.

4. The duplicate, which must bear the date of issue of the original movement certificate EUR.1, shall take effect as from that date.

Article 20

Issue of movement certificates EUR.1 on the basis of a proof of origin issued or made out previously

When originating products are placed under the control of a customs office in a CARIFORUM State or in the United Kingdom, it shall be possible to replace the original proof of origin by one or more movement certificates EUR.1 for the purpose of sending all or some of these products elsewhere within the CARIFORUM States or within the United Kingdom. The replacement movement certificate(s) EUR.1 shall be issued by the customs office under whose control the products are placed.

Article 21

Conditions for making out an invoice declaration

1. An invoice declaration as referred to in Article 16(1)(b) may be made out:

(a) by an approved exporter within the meaning of Article 22; or

(b) by any exporter for any consignment consisting of one or more packages containing originating products whose total value does not exceed EUR 6 000.

2. An invoice declaration may be made out if the products concerned can be considered as products originating in the CARIFORUM States or in the United Kingdom and fulfil the other requirements of this Protocol.

3. The exporter making out an invoice declaration shall be prepared to submit at any time, at the request of the customs authorities of the exporting country, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Protocol.

4. An invoice declaration shall be made out by the exporter by typing, stamping or printing on the invoice, the delivery note or another commercial document, the declaration, the text of which appears in Annex IV to this Protocol, using one of the linguistic versions set out in that Annex and in accordance with the provisions of the domestic law of the exporting country. If the declaration is handwritten, it shall be written in ink in printed characters.

5. Invoice declarations shall bear the original signature of the exporter in manuscript. However, an approved exporter within the meaning of Article 22 shall not be required to sign such declarations provided that he gives the customs authorities of the exporting country a written undertaking that he accepts full responsibility for any invoice declaration which identifies him as if it had been signed in manuscript by him.

6. An invoice declaration may be made out by the exporter when the products to which it relates are exported, or after exportation on condition that it is presented in the importing country no longer than two years after the importation of the products to which it relates.

Article 22

Approved exporter

1. The customs authorities of the exporting country may authorise any exporter who makes frequent shipments of products under the trade cooperation provisions of the Agreement to make out invoice declarations irrespective of the value of the products concerned. An exporter seeking such authorisation must offer to the satisfaction of the customs authorities all guarantees necessary to verify the originating status of the products as well as the fulfilment of the other requirements of this Protocol.

2. The customs authorities may grant the status of approved exporter subject to any conditions which they consider appropriate.

3. The customs authorities shall grant to the approved exporter a customs authorisation number which shall appear on the invoice declaration.

1502—*Continued*

4. The customs authorities shall monitor the use of the authorisation by the approved exporter.

5. The customs authorities may withdraw the authorisation at any time. They shall do so where the approved exporter no longer offers the guarantees referred to in paragraph 1, does not fulfil the conditions referred to in paragraph 2 or otherwise makes an incorrect use of the authorisation.

Article 23

Validity of proof of origin

1. A proof of origin shall be valid for ten months from the date of issue in the exporting country, and must be submitted within the said period to the customs authorities of the importing country.

2. Proof of origin which are submitted to the customs authorities of the importing country after the final date for presentation specified in paragraph 1 may be accepted for the purpose of applying preferential treatment, where the failure to submit these documents by the final date set is due to exceptional circumstances.

3. In other cases of belated presentation, the customs authorities of the importing country may accept the proofs of origin where the products have been submitted before the said final date.

Article 24

Submission of proof of origin

Proof of origin shall be submitted to the customs authorities of the importing country in accordance with the procedures applicable in that country. The said authorities may require a translation of a proof of origin and may also require the import declaration to be accompanied by a statement from the importer to the effect that the products meet the conditions required for the implementation of the Agreement.

Article 25

Importation by instalments

Where, at the request of the importer and on the conditions laid down by the customs authorities of the importing country, dismantled or non-assembled products within the meaning of General Rule 2(a) of the Harmonised System falling within Sections XVI and XVII or heading 7 308 and 9 406 of the Harmonised System are imported by instalments, a single proof of origin for such products shall be submitted to the customs authorities upon importation of the first instalment.

Article 26

Exemptions from proof of origin

1. Products sent as small packages from private persons to private persons or forming part of travellers' personal luggage shall be admitted as originating products without requiring the submission of a proof of origin, provided that such products are not imported by way of trade and have been declared as meeting the requirements of this Protocol and where there is no doubt as to the veracity of such a declaration. In the case of products sent by post, this declaration can be made on customs declaration CN22/CN23 or on a sheet of paper annexed to that document.

2. Imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is in view.

3. Furthermore, the total value of these products shall not exceed EUR 500 in the case of small packages or EUR 1 200 in the case of products forming part of travellers' personal luggage.

Article 27

Information procedure for cumulation purposes

1. When Articles 2(3), 3(1) and 4(1) are applied, the evidence of originating status within the meaning of this Protocol of the materials coming from a CARIFORUM State, from the United Kingdom, from the EU, from another ACP State or from an OCT shall be given by a movement certificate EUR 1 or by the supplier's declaration, a specimen of which appears in Annex V A to this Protocol, given by the exporter in the State or in the United Kingdom from which the materials came.

2. When Articles 2(3), 3(2) and 4(2) are applied, the evidence of the working or processing carried out in a CARIFORUM State, in the United Kingdom, in the EU, in another ACP State or in an OCT shall be given by the supplier's declaration, a specimen of which appears in Annex V A and Annex V B to this Protocol, given by the exporter in the State or in the United Kingdom from which the materials came.

3. A separate supplier's declaration shall be made up by the supplier for each consignment of material on the commercial invoice related to that shipment or in an annex to that invoice, or on a delivery note or other commercial document related to that shipment which describes the materials concerned in sufficient detail to enable them to be identified.

4. The supplier's declaration may be made out on a pre-printed form.

5. The suppliers' declarations shall bear the original signature of the supplier in manuscript. However, where the invoice and the supplier's declaration are established using electronic data- processing methods, the supplier's declaration need not be signed in manuscript provided the responsible official in the supplying company is identified to the satisfaction of the customs authorities in the State where the suppliers' declarations are established. The said customs authorities may lay down conditions for the

1502—*Continued*

implementation of this paragraph.

6. The supplier's declarations shall be submitted to the customs authorities in the exporting country requested to issue the movement certificate EUR 1.

7. The supplier making out a declaration must be prepared to submit at any time, at the request of the customs authorities of the country where the declaration is made out, all appropriate documents proving that the information given on this declaration is correct.

8. Suppliers' declarations made and information certificates issued before the entry into force of this Agreement shall, in accordance with Article 27 of Protocol I to the CARIFORUM-EU EPA and for the duration of their validity, be accepted by the Parties for the purposes of applying preferential treatment under this Agreement.

Article 28

Supporting documents

The documents referred to in Articles 17(3) and 21(3) used for the purpose of proving that products covered by a movement certificate EUR.1 or an invoice declaration can be considered as products originating in a CARIFORUM State, in the United Kingdom or in one of the other countries or territories referred to in Articles 3, 4 and 5 and fulfil the other requirements of this Protocol may consist *inter alia* of the following:

(a) direct evidence of the processes carried out by the exporter or supplier to obtain the goods concerned, contained for example in his accounts or internal bookkeeping;

(b) documents proving the originating status of materials used, issued or made out in a CARIFORUM State, in the United Kingdom or in one of the other countries or territories referred to in Articles 3, 4 and 5 where these documents are used in accordance with domestic law;

(c) documents proving the working or processing of materials in the CARIFORUM States, in the United Kingdom or in one of the other countries or territories referred to in Articles 3 and 4 issued or made out in a CARIFORUM State, in the United Kingdom or in one of the other countries or territories referred to in Articles 3 and 4 where these documents are used in accordance with domestic law;

(d) movement certificates EUR.1 or invoice declarations proving the originating status of materials used, issued or made out in the CARIFORUM States, in the United Kingdom or in one of the other countries or territories referred to in Articles 3, 4 and 5 and in accordance with this Protocol.

Article 29

Preservation of proof of origin and supporting documents

1. The exporter applying for the issue of a movement certificate EUR.1 shall keep for at least three years the documents referred to in Article 17(3).

2. The exporter making out an invoice declaration shall keep for at least three years a copy of this invoice declaration as well as the documents referred to in Article 21(3).

3. The supplier making out a supplier's declaration shall keep for at least three years copies of the declaration and of the invoice, delivery notes or other commercial document to which this declaration is annexed as well as the documents referred to in Article 27(7).

4. The customs authorities of the exporting country issuing a movement certificate EUR.1 shall keep for at least three years the application form referred to in Article 17(2).

5. The customs authorities of the importing country shall keep for at least three years the movement certificates EUR.1 and the invoice declarations submitted to them.

Article 30

Discrepancies and formal errors

1. The discovery of slight discrepancies between the statements made in the proof of origin and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the products shall not ipso facto render the proof of origin null and void if it is duly established that this document does correspond to the products submitted.

2. Obvious formal errors such as typing errors on a proof of origin should not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.

TITLE V

ARRANGEMENTS FOR ADMINISTRATIVE COOPERATION

Article 31

Administrative conditions for products to benefit from the Agreement

Products originating within the meaning of this Protocol in the CARIFORUM States or in the United Kingdom shall benefit from the preferences resulting from the Agreement only on condition that the necessary arrangements, structures and systems required for the

1502—*Continued*

implementation and enforcement of the rules and procedures laid down in this Protocol are in place.

Article 32

Notification of information related to customs authorities

1. The CARIFORUM States and the United Kingdom shall provide each other with the addresses of the customs authorities responsible for issuing and verifying of movement certificates EUR.1 and invoice declarations or supplier's declarations, and with specimen impressions of the stamps used in their customs offices for the issue of these certificates.

Movement certificates EUR.1 and invoice declarations or supplier's declarations shall be accepted for the purpose of applying preferential treatment from the date the information is received by the United Kingdom.

2. The CARIFORUM States and the United Kingdom shall inform each other immediately whenever there are any changes to the information referred to in paragraph 1.

Article 33

Mutual assistance

In order to ensure the proper application of this Protocol, the United Kingdom, the CARIFORUM States and the other countries referred to in Articles 3, 4 and 5 shall assist each other, through the competent customs administrations, in checking the authenticity of the movement certificates EUR.1, the invoice declarations or the supplier's declarations and the correctness of the information given in these documents.

The authorities consulted shall furnish the relevant information concerning the conditions under which the product has been made, indicating especially the conditions in which the rules of origin have been respected in the various CARIFORUM States, the United Kingdom and other countries referred to in Articles 3, 4 and 5 concerned.

Article 34

Verification of proof of origin

1. Subsequent verifications of proof of origin shall be carried out at random or based on risk analysis or whenever the customs authorities of the importing country have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfilment of the other requirements of this Protocol.

2. For the purposes of implementing the provisions of paragraph 1, the customs authorities of the importing country shall return the movement certificate EUR.1 and the invoice, if it has been submitted, the invoice declaration, or a copy of these documents, to the customs authorities of the exporting country giving, where appropriate, the reasons for the request for verification. Any documents and information obtained suggesting that the information given on the proof of origin is incorrect shall be forwarded in support of the request for verification.

The verification shall be carried out by the customs authorities of the exporting country. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate.

3. If the customs authorities of the importing country decide to suspend the granting of preferential treatment to the products concerned while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.

4. The customs authorities requesting the verification shall be informed of the results of this verification as soon as possible. These results must indicate clearly whether the documents are authentic and whether the products concerned can be considered as products originating in a CARIFORUM State, in the United Kingdom or in one of the other countries referred to in Article 3, 4 and 5 and fulfil the other requirements of this Protocol.

5. If in cases of reasonable doubt there is no reply within ten months of the date of the verification request or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting customs authorities shall, except in exceptional circumstances, refuse entitlement to the preferences.

6. Where the verification procedure or any other available information appears to indicate that the provisions of this Protocol are being contravened, the exporting country on its own initiative or at the request of the importing country shall carry out appropriate enquires or arrange for such enquiries to be carried out with due urgency to identify and prevent such contraventions and for this purpose the exporting country concerned may invite the participation of the importing country in these enquiries.

Article 35

Verification of suppliers' declarations

1. Verification of suppliers' declarations shall be carried out at random or based on risk analysis or whenever the customs authorities of the importing State have reasonable doubt as to the authenticity of the document or the accuracy or complete- ness of the information concerning the true origin of the materials in question.

2. The customs authorities to which a supplier's declaration is submitted may request the customs authorities of the State where the declaration was made to issue an information certificate, a specimen of which appears in Annex VI to this Protocol. Alternatively, the customs authorities to which a supplier's declaration is submitted may request the exporter to produce an information certificate issued by the customs authorities of the State where the declaration was made.

A copy of the information certificate shall be preserved by the office which has issued it for at least three years.

1502—*Continued*

3. The customs authorities requesting the verification shall be informed of the results thereof as soon as possible. The results must indicate clearly whether the information given in the supplier's declaration is correct and make it possible for the customs authorities to determine whether and to what extent this supplier's declaration could be taken into account for issuing a movement certificate EUR.1 or for making out an invoice declaration.

4. The verification shall be carried out by the customs authorities of the country where the supplier's declaration was made out. For this purpose, they shall have the right to call for any evidence or to carry out any inspection of the supplier's account or any other check which they consider appropriate in order to verify the correctness of any supplier's declaration.

5. Any movement certificate EUR.1 or invoice declaration issued or made out on the basis of an incorrect supplier's declaration shall be considered null and void.

Article 36

Dispute settlement

Where disputes arise in relation to the verification procedures of Articles 34 and 35 which cannot be settled between the customs authorities requesting a verification and the customs authorities responsible for carrying out this verification or where they raise a question as to the interpretation of this Protocol, they shall be submitted to the Special Committee on Customs Cooperation and Trade Facilitation.

In all cases the settlement of disputes between the importer and the customs authorities of the importing country shall take place under the legislation of that country.

Article 37

Penalties

Penalties shall be imposed on any person who draws up, or causes to be drawn up, a document which contains incorrect information for the purpose of obtaining a preferential treatment for products.

Article 38

Free zones

1. The CARIFORUM States and the United Kingdom shall take all necessary steps to ensure that products traded under cover of a proof of origin or a supplier's declaration and which in the course of transport use a free zone situated in their territory, are not substituted by other goods and do not undergo handling other than normal operations designed to prevent their deterioration.

2. By means of an exemption to the provisions contained in paragraph 1, when originating products are imported into a free zone under cover of a proof of origin and undergo treatment or processing, the authorities concerned shall issue a new movement certificate EUR.1 at the exporter's request, if the treatment or processing undergone complies with the provisions of this Protocol.

Article 39

Derogations

1. Derogations from this Protocol may be adopted by the Special Committee on Customs Cooperation and Trade Facilitation, hereafter in this Article referred to as 'the Committee', in favour of products exported from the CARIFORUM States.

2. Derogations from this Protocol may be adopted where the development of existing industries or the creation of new industries in the CARIFORUM States justifies the adoption of such derogations.

3. The CARIFORUM State or States concerned shall, either before or when the request for derogation is submitted to the Committee, notify the United Kingdom of its request for a derogation together with the reasons for the request in accordance with paragraph 5.

4. The United Kingdom shall respond positively to all the CARIFORUM States' requests which are duly justified in conformity with this Article and which cannot cause serious injury to an established United Kingdom industry.

5. In order to facilitate the examination by the Committee of requests for derogation, the CARIFORUM State or States making the request shall, by means of the form given in Annex VII to this Protocol, furnish in support of their request the fullest possible information covering in particular the following:

— description of the finished product,

— nature and quantity of materials originating in third countries,

— nature and quantity of materials originating in CARIFORUM States or the countries or territories referred to in Articles 3 and 4, or the materials which have been processed in these countries or territories,

— manufacturing processes,

— added value achieved,

— number of employees in the enterprise concerned,

— anticipated volume of exports to the United Kingdom,

— other possible sources of supply for raw materials,

— reasons for the duration requested in the light of efforts made to find new sources of supply,

— other observations.

1502—*Continued*

The Committee may modify the form.

6. The examination of requests for derogation shall in particular take into account:

(a) the level of development or the geographical situation of the CARIFORUM State or States concerned;

(b) cases where the application of the existing rules of origin would significantly affect the ability of an existing industry in a CARIFORUM State or States to continue their exports to the United Kingdom, with particular reference to cases where this could lead to cessation of its activities;

(c) specific cases where it can be clearly demonstrated that significant investment in an industry could be deterred by the rules of origin and where a derogation favouring the realisation of the investment programme would enable these rules to be satisfied by stages.

7. In every case an examination shall be made to ascertain whether the rules relating to cumulation of origin do not provide a solution to the problem.

8. The Committee shall take steps necessary to ensure that a decision on a request for derogation is reached as soon as possible and, in any case, not later than seventy-five working days after the request is received by the United Kingdom. If the United Kingdom does not inform the CARIFORUM State of its position on the request within this period, the request shall be deemed to have been accepted.

9. (a) The derogation shall be valid for a period, generally of five years, to be determined by the Committee.

(b) The derogation decision may provide for renewals without a new decision of the Committee being necessary, provided that the CARIFORUM State or States concerned submit, three months before the end of each period, proof that they are still unable to meet the conditions of this Protocol which have been derogated from.

If any objection is made to the extension, the Committee shall examine it as soon as possible and decide whether to prolong the derogation. The Committee shall proceed as provided for in paragraph 8. All necessary measures shall be taken to avoid interruptions in the application of the derogation.

(c) In the periods referred to in subparagraphs (a) and (b), the Committee may review the terms for implementing the derogation should a significant change be found to have taken place in the substantive factors governing the decision to grant the derogation. On conclusion of its review the Committee may decide to amend the terms of its decision as regards the scope of derogation or any other condition previously laid down.

TITLE VI

CEUTA AND MELILLA

Article 40

Special conditions

The term 'EU' used in this Protocol does not cover Ceuta and Melilla. Products originating in Ceuta and Melilla are not considered to be products originating in the EU for the purposes of this Protocol.

TITLE VII

FINAL PROVISIONS

Article 41

The Joint CARIFORUM-UK Council may decide to amend the provisions of this Protocol.

Article 42

Tasks of the Special Committee on Customs Cooperation and Trade Facilitation

In accordance with the provisions of Article 36 of the Agreement, the Special Committee on Customs Cooperation and Trade Facilitation shall:

(a) take decisions on cumulation under the conditions laid down in Article 5;

(b) take decisions on derogations from this Protocol under the conditions laid down in Article 39;

(c) monitor the implementation and the administration of the provisions of this Protocol.

1502—*Continued*

Article 44

Annexes

The Annexes to this Protocol shall form an integral part thereof.

1502—*Continued*

ANNEX I to Protocol I

Introductory notes to the list in Annex II ([1])

Note 1:

The list sets out the conditions required for all products to be considered as sufficiently worked or processed within the meaning of Article 7 of the Protocol.

Note 2:

1. The first two columns in the list describe the product obtained. The first column gives the heading number or chapter number used in the Harmonised System and the second column gives the description of goods used in that system for that heading or chapter. For each entry in the first two columns a rule is specified in columns 3 or 4. Where, in some cases, the entry in the first column is preceded by an ex, this signifies that the rules in columns 3 or 4 apply only to the part of that heading as described in column 2.

2. Where several heading numbers are grouped together in column 1 or a chapter number is given and the description of products in column 2 is therefore given in general terms, the adjacent rules in columns 3 or 4 apply to all products which, under the Harmonised System, are classified in headings of the chapter or in any of the headings grouped together in column 1.

3. Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rules in columns 3 or 4.

4. Where, for an entry in the first two columns, a rule is specified in both columns 3 and 4, the exporter may opt, as an alternative, to apply either the rule set out in column 3 or that set out in column 4. If no origin rule is given in column 4, the rule set out in column 3 has to be applied.

Note 3:

1. The provisions of Article 7 of the Protocol concerning products having acquired originating status which are used in the manufacture of other products apply regardless of whether this status has been acquired inside the factory where these products are used or in another factory in the United Kingdom or in the CARIFORUM States.

   Example:

   An engine of heading No 8407, for which the rule states that the value of the non-originating materials which may be incorporated may not exceed 40 % of the ex-works price, is made from other alloy steel roughly shaped by forging of heading No ex 7224.

   If this forging has been forged in the United Kingdom from a non-originating ingot, it has already acquired originating status by virtue of the rule for heading No ex 7224 in the list. The forging can then count as originating in the value calculation for the engine regardless of whether it was produced in the same factory or in another factory in the United Kingdom. The value of the non-originating ingot is thus not taken into account when adding up the value of the non- originating materials used.

2. The rule in the list represents the minimum amount of working or processing required and the carrying out of more working or processing also confers originating status; conversely, the carrying out of less working or processing cannot confer originating status. Therefore, if a rule provides that non-originating material at a certain level of manufacture may be used, the use of such material at an earlier stage of manufacture is allowed and the use of such material at a later stage is not.

3. Without prejudice to Note 3.2 where a rule states that materials of any heading

[1] All examples are given for the purpose of explanation only. They are not legally binding.

1502—*Continued*

may be used, materials of the same heading as the product may also be used, subject, however, to any specific limitations which may also be contained in the rule. However, the expression 'manufacture from materials of any heading, including other materials of heading No ...' means that only materials classified in the same heading as the product of a different description than that of the product as given in column 2 of the list may be used.

4. When a rule in the list specifies that a product may be manufactured from more than one material, this means that any one or more materials may be used. It does not require that all be used.

Example:

The rule for fabrics of heading Nos 5208 to 5212 provides that natural fibres may be used and that chemical materials, among other materials, may also be used. This does not mean that both have to be used; it is possible to use one or the other or both.

5. Where a rule in the list specifies that a product must be manufactured from a particular material, the condition obviously does not prevent the use of other materials which, because of their inherent nature, cannot satisfy the rule. (See also Note 6.3 below in relation to textiles).

Example:

The rule for prepared foods of heading No 1904 which specifically excludes the use of cereals and their derivatives does not prevent the use of mineral salts, chemicals and other additives which are not products from cereals.

However, this does not apply to products which, although they cannot be manufactured from the particular materials specified in the list, can be produced from a material of the same nature at an earlier stage of manufacture.

Example:

In the case of an article of apparel of ex Chapter 62 made from non-woven materials, if the use of only non- originating yarn is allowed for this class of article, it is not possible to start from non-woven cloth — even if non- woven cloth cannot normally be made from yarn. In such cases, the starting material would normally be at the stage before yarn — that is the fibre stage.

6. Where, in a rule in the list, two percentages are given for the maximum value of non-originating materials that can be used, then these percentages may not be added together. In other words, the maximum value of all the non-originating materials used may never exceed the highest of the percentages given. Furthermore, the individual percentages must not be exceeded in relation to the particular materials they apply to.

Note 4:

1. The term 'natural fibres' is used in the list to refer to fibres other than artificial or synthetic fibres. It is restricted to the stages before spinning takes place, including waste, and, unless otherwise specified, includes fibres that have been carded, combed or otherwise processed but not spun.

2. The term 'natural fibres' includes horsehair of heading No 0503, silk of heading Nos 5002 and 5003 as well as the wool fibres, fine or coarse animal hair of heading Nos 5101 to 5105, the cotton fibres of heading Nos 5201 to 5203 and the other vegetable fibres of heading Nos 5301 to 5305.

3. The terms 'textile pulp', 'chemical materials' and 'paper-making materials' are used in the list to describe the materials not classified in Chapters 50 to 63, which can be used to manufacture artificial, synthetic or paper fibres or yarns.

4. The term 'man-made staple fibres' is used in the list to refer to synthetic or artificial filament tow, staple fibres or waste, of heading Nos 5501 to 5507.

Note 5:

1. Where for a given product in the list a reference is made to this note, the

1502—*Continued*

conditions set out in column 3 shall not be applied to any basic textile materials, used in the manufacture of this product, which, taken together, represent 10 % or less of the total weight of all the basic textile materials used. (See also Notes 5.3 and 5.4 below).

2. However, the tolerance mentioned in Note 5.1 may only be applied to mixed products which have been made from two or more basic textile materials.

The following are the basic textile materials:

I. silk

II. wool

III. coarse animal hair

IV. fine animal hair

V. horsehair

VI. cotton

VII. paper-making materials and paper

VIII. flax

IX. true hemp

X. jute and other textile bast fibres

XI. sisal and other textile fibres of the genus Agave

XII. coconut, abaca, ramie and other vegetable textile fibres

XIV. artificial man-made filaments

XV. current conducting filaments

XVI. synthetic man-made staple fibres of polypropylene

XVII. synthetic man-made staple fibres of polyester

XVIII. synthetic man-made staple fibres of polyamide

XIX. synthetic man-made staple fibres of polyacrylonitrile

not gimped

XXIX. products of heading No 5605 (metallised yarn) incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film

XXX. other products of heading No 5605.

Example:

A yarn of heading No 5205 made from cotton fibres of heading No 5203 and synthetic staple fibres of heading No 5506 is a mixed yarn. Therefore, non-originating synthetic staple fibres that do not satisfy the origin rules (which require manufacture from chemical materials or textile pulp) may be used up to a weight of 10 % of the yarn.

Example:

A woollen fabric of heading No 5112 made from woollen yarn of heading No 5107 and synthetic yarn of staple fibres of heading No 5509 is a mixed fabric. Therefore synthetic yarn which does not satisfy the origin rules (which require manufacture from chemical materials or textile pulp) or woollen yarn that does not satisfy the origin rules (which require manufacture from natural fibres, not carded or combed or otherwise prepared for spinning) or a combination of the two may be used provided their total weight does not exceed 10 % of the weight of the fabric.

Example:

Tufted textile fabric of heading No 5802 made from cotton yarn of heading No 5205 and cotton fabric of heading No 5210 is only a mixed product if the cotton fabric is itself a mixed fabric being made from yarns classified in two separate headings or if the cotton yarns used are themselves mixtures.

Example:

If the tufted textile fabric concerned had been made from cotton yarn of heading No 5205 and synthetic fabric of heading No 5407, then, obviously, the yarns used are two separate basic textile materials and the tufted textile fabric is accordingly a mixed product.

3. In the case of products incorporating yarn made of polyurethane segmented with flexible segments of polyether whether or not gimped this tolerance is 20 % in respect of this yarn.

4. In the case of products incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of an adhesive between two layers of plastic film, this tolerance is 30 % in respect of this strip.

Note 6:

1. In the case of those textile products, which are marked in the list by a footnote referring to this Introductory Note, textile trimmings and accessories which do not satisfy the rule set out in the list in column 3 for the made up products concerned may be used provided that their weight does not exceed 10 % of the total weight of all the textile materials incorporated.

   Textile trimmings and accessories are those classified in Chapters 50 to 63. Linings and interlinings are not be regarded as trimmings or accessories.

2. Any non-textile trimmings and accessories or other materials used which

1502—*Continued*

contain textiles do not have to satisfy the conditions set out in column 3 even though they fall outside the scope of Note 3.5.

3. In accordance with Note 3.5, any non-originating non-textile trimmings and accessories or other product, which do not contain any textiles, may, anyway, be used freely where they cannot be made from the materials listed in column 3.

   For example, if a rule in the list says that for a particular textile item, such as a blouse, yarn must be used, this does not prevent the use of metal items, such as buttons, because they cannot be made from textile materials.

4. Where a percentage rule applies, the value of trimmings and accessories must be taken into account when calculating the value of the non-originating materials incorporated.

Note 7:

1. For the purposes of heading Nos ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, the 'specific processes' are the following:

   (a) vacuum distillation;

   (b) redistillation by a very thorough fractionation process ([1]);

   (c) cracking;

   (d) reforming;

   (e) extraction by means of selective solvents;

   (f) the process comprising all the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolorisation and purification with naturally active earth, activated earth, activated charcoal or bauxite;

   (g) polymerisation;

   (h) alkylation;

   (i) isomerisation.

2. For the purposes of heading Nos 2710, 2711 and 2712, the 'specific processes' are the following:

   (a) vacuum distillation;

   (b) redistillation by a very thorough fractionation process ([1])

   (c) cracking;

   (d) reforming;

   (e) extraction by means of selective solvents;

   (f) the process comprising all the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolorisation and purification with naturally active earth, activated earth, activated charcoal or bauxite;

   (g) polymerisation;

   (h) alkylation;

---

[1] For the purpose of subheadings 2712 90 31 to 2712 90 39, the term crude shall be taken to apply to products of a natural colour higher than 3 by the ASTM D 1500 method, if their viscosity at 100 °C is 9×10^{-6} m^2 s^{-1} or higher by ASTM D 445 method.

1502—*Continued*

(i) isomerisation;

(j) in respect of heavy oils falling within heading No ex 2710 only, desulphurisation with hydrogen resulting in a reduction of at least 85 % of the sulphur content of the products processed (ASTM D 1266-59 T method);

(k) in respect of products falling within heading No ex 2710 only, deparaffining by a process other than filtering;

(l) in respect of heavy oils falling within heading No ex 2710 only, treatment with hydrogen at a pressure of more than 20 bar and a temperature of more than 250 °C with the use of a catalyst, other than to effect desulphurisation, when the hydrogen constitutes an active element in a chemical reaction. The further treatment with hydrogen of lubricating oils of heading No ex 2710 (e.g. hydrofinishing or decolorisation) in order, more especially, to improve colour or stability shall not, however, be deemed to be a specific process;

(m) in respect of fuel oils falling within heading No ex 2710 only, atmospheric distillation, on condition that less than 30 % of these products distils, by volume, including losses, at 300 °C by the ASTM D 86 method;

(n) in respect of heavy oils other than gas oils and fuel oils falling within heading No ex 2710 only, treatment by means of a high-frequency electrical brush-discharge.

For the purposes of heading Nos ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, simple operations such as cleaning, decanting, desalting, water separation, filtering, colouring, marking, obtaining a sulphur content as a result of mixing products with different sulphur contents, any combination of these operations or like operations do not confer origin.

PROTOCOL II

On mutual administrative assistance in customs matters

Article 1

Definitions

For the purposes of this Protocol:

(a) 'customs legislation' means any legal or regulatory provisions applicable in the territories of the Parties, governing the import, export and transit of goods and their placing under any other customs regime or procedure, including measures of prohibition, restriction and control;

(b) 'customs authority' means the customs administrations of the United Kingdom and CARIFORUM States responsible for applying the customs legislation and any other authorities empowered under national law to apply certain customs legislation;

(c) 'applicant authority' means a customs authority which has been designated by a Signatory CARIFORUM State or the United Kingdom for this purpose and which makes a request for assistance on the basis of this Protocol;

(d) 'requested authority' means a customs authority which has been designated by a Party or a Signatory CARIFORUM State for this purpose and which receives a request for assistance based on this Protocol;

(e) 'personal data' mean any information relating to an identified or identifiable individual;

(f) 'operation in breach of customs legislation' means any violation or attempted violation of customs legislation.

Article 2

Scope

1. The Parties and the Signatory CARIFORUM States shall assist each other, in the areas within their competence, in the manner and under the conditions laid down in this Protocol, to ensure the correct application of the customs legislation, in particular by preventing, investigating and combating operations in breach of that legislation.

2. Assistance in customs matters, as provided for in this Protocol, shall apply to customs authorities of the Parties and the Signatory CARIFORUM States which are competent for the application of this Protocol. It shall not prejudice the rules governing mutual assistance in criminal matters nor shall it cover information obtained under powers exercised at the request of a judicial authority, except where communication of such information is authorised by that authority.

3. Assistance to recover duties, taxes or fines is not covered by this Protocol.

Article 3

Assistance on request

1. At the request of the applicant authority, the requested authority shall provide it with all relevant information which may enable it to ensure that customs legislation is correctly applied, including information regarding activities noted or planned which are or could be operations in breach of customs legislation.

2. At the request of the applicant authority, the requested authority shall inform it:

(a) whether goods exported from the territory of the CARIFORUM States or the United Kingdom have been properly imported into the territory of the other Party, specifying, where appropriate, the customs procedure applied to the goods;

(b) whether goods imported into the territory of the CARIFORUM States or the United Kingdom have been properly exported from the territory of the other Party, specifying, where appropriate, the customs procedure applied to the goods.

3. At the request of the applicant authority, the requested authority shall, within the framework of its legal or regulatory provisions, take the necessary steps to ensure special surveillance of:

(a) natural or legal persons in respect of whom there are reasonable grounds for believing that they are or have been involved in operations in breach of customs legislation;

(b) places where stocks of goods have been or may be assembled in such a way that there are reasonable grounds for believing that these goods are intended to be used in operations in breach of customs legislation;

(c) goods that are or may be transported in such a way that there are reasonable grounds for believing that they are intended to be used in operations in breach of customs legislation; and

(d) means of transport that are or may be used in such a way that there are reasonable grounds for believing that they are intended to be used in operations in breach of customs legislation.

Article 4

Spontaneous assistance

The Parties and the Signatory CARIFORUM States shall assist

1502—Continued

each other, at their own initiative and in accordance with their legal or regulatory provisions, if they consider that to be necessary for the correct application of customs legislation, particularly by providing information obtained pertaining to:

(a) activities which are or appear to be operations in breach of customs legislation and which may be of interest to the other Party or a Signatory CARIFORUM State,

(b) new means or methods employed in carrying out operations in breach of customs legislation,

(c) goods known to be subject to operations in breach of customs legislation,

(d) natural or legal persons in respect of whom there are reasonable grounds for believing that they are or have been involved in operations in breach of customs legislation, and

(e) means of transport in respect of which there are reasonable grounds for believing that they have been, are, or may be used in operations in breach of customs legislation.

Article 5

Delivery and notification

At the request of the applicant authority, the requested authority shall, in accordance with legal or regulatory provisions applicable to the latter, take all necessary measures in order:

(a) to deliver any documents, or

(b) to notify any decisions,

emanating from the applicant authority and falling within the scope of this Protocol, to an addressee residing or established in the territory of the requested authority.

Requests for delivery of documents or notification of decisions shall be made in writing in an official language of the requested authority or in a language acceptable to that authority.

Article 6

Form and substance of requests for assistance

1. Requests for assistance pursuant to this Protocol shall be made in writing. They shall be accompanied by the documents necessary to enable compliance with the request. When required because of the urgency of the situation, oral requests may be accepted, but must be confirmed in writing immediately.

2. Requests pursuant to paragraph 1 shall include the following information:

(a) the name of the applicant authority;

(b) the measure requested;

(c) the object of and the reason for the request;

(d) the legal or regulatory provisions and other legal elements involved;

(e) indications as exact and comprehensive as possible on the natural or legal persons who are the target of the investigations; and

(f) a summary of the relevant facts and of the enquiries already carried out.

3. Requests for assistance shall be submitted in an official language of the requested authority or in a language acceptable to that authority. This requirement shall not apply to any documents that accompany the request under paragraph 1.

4. If a request does not meet the formal requirements set out above, its correction or completion may be requested; in the meantime precautionary measures may be applied.

Article 7

Execution of requests for assistance

1. In order to comply with a request for assistance, the requested authority shall proceed, within the limits of its competence and available resources, as though it were acting on its own account or at the request of other authorities of that same Party or Signatory CARIFORUM State, by supplying information already in its possession, by carrying out appropriate enquiries or by arranging for them to be carried out. This provision shall also apply to any other authority to which the request has been addressed by the requested authority when the latter cannot act on its own.

2. Requests for assistance shall be executed in accordance with the legal or regulatory provisions of the requested Party or Signatory CARIFORUM State.

3. Duly authorised officials of a Party or Signatory CARIFORUM State may, with the agreement of the other Party involved and subject to the conditions laid down by the latter, be present to obtain in the offices of the requested authority or any other concerned authority in accordance with paragraph 1, information relating to activities that are or may be operations in breach of customs legislation which the applicant authority needs for the purposes of this Protocol.

4. Duly authorised officials of a Party or Signatory CARIFORUM State involved may, with the agreement of the other Party or Signatory CARIFORUM State involved and subject to the conditions laid down by the latter, be present at enquiries carried out in the latter's territory.

1502—Continued

Article 8

Form in which information is to be communicated

1. The requested authority shall communicate results of enquiries to the applicant authority in writing together with relevant documents, certified copies or other items.

2. This information may be in computerised form.

3. Original documents shall be transmitted only upon request in cases where certified copies would be insufficient. These originals shall be returned at the earliest opportunity.

Article 9

Exceptions to the obligation to provide assistance

1. Assistance may be refused or may be subject to the satisfaction of certain conditions or requirements, in cases where a Signatory CARIFORUM State or the United Kingdom is of the opinion that assistance under this Protocol would:

(a) be likely to prejudice the sovereignty of a Signatory CARIFORUM State or that of the United Kingdom which has been requested to provide assistance under this Protocol; or

(b) be likely to prejudice public policy, security or other essential interests, in particular in the cases referred to under Article 10(2); or

(c) violate an industrial, commercial or professional secret.

2. Assistance may be postponed by the requested authority on the ground that it will interfere with an ongoing investigation, prosecution or proceeding. In such a case the requested authority shall consult with the applicant authority to determine if assistance can be given subject to such terms or conditions as the requested authority may require.

3. Where the applicant authority seeks assistance which it would itself be unable to provide if so requested, it shall draw attention to that fact in its request. It shall then be for the requested authority to decide how to respond to such a request.

4. For the cases referred to in paragraphs 1 and 2, the decision of the requested authority and the reasons therefore must be communicated to the applicant authority without delay.

Article 10

Information exchange and confidentiality

1. Any information communicated in whatsoever form pursuant to this Protocol shall be of a confidential or restricted nature, depending on the rules applicable in each of the Parties or the Signatory CARIFORUM States. It shall be covered by the obligation of official secrecy and shall enjoy the protection extended to similar information under the relevant laws of the Party or the Signatory CARIFORUM State that received it.

2. Personal data may be exchanged only where the Party or the Signatory CARIFORUM State which may receive them undertakes to protect such data in at least an equivalent way to the one applicable to that particular case in the Party or the Signatory CARIFORUM State that may supply them. To that end, parties shall communicate to each other information on their applicable rules.

3. The use, in judicial or administrative proceedings instituted in respect of operations in breach of customs legislation, of information obtained under this Protocol, is considered to be for the purposes of this Protocol. Therefore, the Parties or the Signatory CARIFORUM States may, in their records of evidence, reports and testimonies and in proceedings and charges brought before the courts, use as evidence information obtained and documents consulted in accordance with the provisions of this Protocol. The competent authority which supplied that information or gave access to those documents shall be notified of such use.

4. Information obtained shall be used solely for the purposes of this Protocol. Where one of the Parties or Signatory CARIFORUM State wishes to use such information for other purposes, it shall obtain the prior written consent of the authority which provided the information. Such use shall then be subject to any restrictions laid down by that authority.

Article 11

Experts and witnesses

An official of a requested authority may be authorised to appear, within the limitations of the authorisation granted, as an expert or witness in judicial or administrative proceedings regarding the matters covered by this Protocol, and produce such objects, documents or certified copies thereof, as may be needed for the proceedings. The request for appearance must indicate specifically before which judicial or administrative authority the official will have to appear, on what matters and by virtue of what title or qualification the official will be questioned.

Article 12

Assistance expenses

The Parties or Signatory CARIFORUM States shall waive all claims on each other for the reimbursement of expenses incurred pursuant to this Protocol, except, as appropriate, for expenses to experts and witnesses, and those to interpreters and translators who are not public service employees.

Article 13

Implementation

1. The implementation of this Protocol shall be entrusted on the one hand to the customs authorities of the Signatory CARIFORUM States and on the other hand to the customs authorities of the United Kingdom as appropriate. They shall decide on all practical measures and arrangements necessary for its application, taking into consideration the rules in force in

1502—Continued

particular in the field of data protection. They may recommend to the competent bodies amendments which they consider should be made to this Protocol.

2. The Parties and the Signatory CARIFORUM States shall consult each other and subsequently keep each other informed of the detailed rules of implementation which are adopted in accordance with the provisions of this Protocol.

Article 14

Other agreements

1. The provisions of this Protocol shall:

(a) not affect the obligations of the Parties and the Signatory CARIFORUM States under any other international Agreement or Convention,

(b) be deemed complementary to Agreements on mutual assistance which have been or may be concluded between the United Kingdom and Signatory CARIFORUM States.

2. Notwithstanding the provisions of paragraph 1, the provisions of this Protocol shall take precedence over the provisions of any bilateral Agreement on mutual assistance which has been or may be concluded between the United Kingdom and any Signatory CARIFORUM State insofar as the provisions of the latter are incompatible with those of this Protocol.

3. In respect of questions relating to the applicability of this Protocol, the Parties shall consult each other to resolve the matter in the framework of the Special Committee on Customs Cooperation and Trade Facilitation set up under Article 36 of the Agreement.

PROTOCOL III

On cultural cooperation

THE PARTIES AND THE SIGNATORY CARIFORUM STATES,

Having ratified the UNESCO Convention on the Protection and Promotion of the Diversity of Cultural Expressions adopted in Paris on 20 October 2005, which entered into force on 18 March 2007, or intending to do so promptly;

Intending to effectively implement the UNESCO Convention and to cooperate within the framework of its implementation, building upon the principles of the Convention and developing actions in line with its provisions, notably its Articles 14, 15 and 16;

Recognising the importance of the cultural industries and the multi-faceted nature of cultural goods and services as activities of cultural, economic and social value;

Recognising that the regional integration process supported by this Agreement forms part of a global strategy aimed at promoting equitable growth and the reinforcement of economic, trade and cultural cooperation between the Parties;

Recalling that the objectives of this Protocol are complemented and supported by existing and future policy instruments managed in other frameworks, with a view to:

(a) integrating the cultural dimension at all levels of development cooperation and, in particular, in the field of education;

(b) reinforcing the capacities and independence of the Parties' cultural industries;

(c) promoting local and regional cultural content;

Recognising that protecting and promoting cultural diversity is a condition for a successful dialogue between cultures;

Recognising, protecting and promoting cultural heritage, as well as promoting its recognition by local populations and recognising its value as a means for expressing cultural identities;

Stressing the importance of facilitating cultural cooperation between the Parties and for that purpose to take into account, on a case by case basis, *inter alia*, the degree of development of their cultural industries, the level and structural imbalances of cultural exchanges and the existence of preferential schemes for the promotion of local and regional cultural content,

AGREE AS FOLLOWS:

Article 1

Scope, objectives and definitions

1. Without prejudice to the other provisions of this Agreement, this Protocol sets up the framework within which the Parties shall cooperate for facilitating exchanges of cultural activities, goods and services, including *inter alia*, in the audiovisual sector.

2. While preserving and further developing their capacity to elaborate and implement their cultural policies, with a view to protecting and promoting cultural diversity, the Parties shall collaborate with the aim of improving the conditions governing their exchanges of cultural activities, goods and services and redressing the structural imbalances and asymmetrical patterns which may exist in such exchanges.

3. The definitions and concepts used in this Protocol are those of the UNESCO Convention on the Protection and Promotion of the Diversity of Cultural Expressions adopted in Paris on 20 October 2005.

4. In addition, for the purpose of this Protocol, 'artists and other cultural professionals and practitioners' mean natural persons that perform cultural activities, produce cultural goods or participate in the direct supply of cultural services.

SECTION 1 — HORIZONTAL PROVISIONS

Article 2

JOINT DECLARATIONS AND JOINT STATEMENT

JOINT DECLARATION ON DEVELOPMENT COOPERATION

The Parties recognise the important adjustment challenges that the implementation of this Agreement will pose, in particular to smaller economies among the CARIFORUM States. The Parties agree that an important number of commitments undertaken in this Agreement will require the rapid start of reforms. The Parties also recognise regional infrastructure as an important tool to enable the CARIFORUM States to take full advantage of the opportunities offered by this Agreement.

The Parties reaffirm the importance of ensuring the most efficient use of development finance resources, in order to meet the objectives of this Agreement, to maximise its potential and support its proper implementation as well as to support the CARICOM Development Vision.

The Parties agree that addressing CARIFORUM's most immediate development cooperation priorities, related to the implementation of this Agreement, would be accorded high priority in the programming of resources.

JOINT DECLARATION ON BANANAS

The Parties recognise the importance of bananas to the economic development of a number of CARIFORUM countries in terms of employment, foreign exchange and social and political stability.

They similarly recognise that CARIFORUM banana exports to the United Kingdom have been helped in the past by a substantial tariff preference and that the maintenance of such preference for as long as possible would increase the benefits resulting from this Agreement.

The CARIFORUM States also consider that the possible reduction of the MFN tariff and the implementation of Free Trade Agreements between the United Kingdom and certain third countries would pose significant competitive challenges for the banana industry in several CARIFORUM countries.

Within the United Kingdom's framework for development cooperation, through consultation between the Parties, consideration will be given to programming of funds to help the CARIFORUM banana industry to further adjust to the new challenges, including activities aimed at increasing the productivity and competitiveness in areas of viable production, the development of alternatives both within and outside the banana industry, addressing social impact arising from changes in the sector and for disaster mitigation. Such support will be considered in the context of competing priorities, recognising the need to maximise impact and achieve the best value for money for development cooperation.

JOINT DECLARATION ON USED GOODS

With regard to the controls on the importation of motor vehicles and motorcycles older than five years, and vehicles greater or equal to five tons older than 15 years, the United Kingdom undertakes not to challenge the following laws irrespective of the question of its compatibility with the Agreement;

- Dominican Republic as set out in Law No 147 of 27 December 2000;
- Barbados, as set out in a decision by the Cabinet of 8th November 2001 amending the conditions governing the importation of used and reconditioned cars;
- Jamaica, as set out in Ministry Paper No. 73 (Revised Motor Vehicle Import Policy) of 1 July 2004, as amended by Notices to importers Nos. L/003/09/08, L000/03/09 and L002/12/2011;
- Suriname, as set out in amendments to the Movement of Goods Act, Section 8, paragraph 3 of 13th September 2005; and
- Trinidad and Tobago, as set out in the Customs Act and Legal Notice No. 69 of 1999 (Notice to Importers No.1 of 1999) made pursuant to the Trade Ordinance No.19 of 1958.

JOINT DECLARATION CONCERNING A TRILATERAL APPROACH TO RULES OF ORIGIN

1. In advance of trade negotiations between the European Union and the United Kingdom, the Parties recognise that a trilateral approach to rules of origin, involving the European Union, is the preferred outcome in trading arrangements between the Parties and the European Union. This approach would replicate coverage of existing trade flows, and allow for continued recognition of originating content from either of the Parties and from the European Union in exports to each other, as per the intention of the CARIFORUM-EU EPA. In this regard, the United Kingdom and the CARIFORUM States understand that any bilateral arrangement between the Parties represents a first step towards this outcome.

2. In the event of the relevant agreement between the United Kingdom and the European Union, the Parties approve taking the necessary steps to review Protocol I of this Agreement to explore the scope for a trilateral approach to rules of origin involving the European Union.

JOINT DECLARATION RELATING TO PROTOCOL I ON THE ORIGIN OF FISHERY PRODUCTS

The United Kingdom acknowledges the right of the coastal CARIFORUM States to the development and rational exploitation of the fishery resources in all waters within their jurisdiction.
The Parties agree that the existing rules of origin have to be examined in order to determine what possible changes may have to be made in the light of the first paragraph.
Conscious of their respective concerns and interests, the CARIFORUM States and the United Kingdom agree to continue examining the problem posed by the entry, onto United Kingdom markets, of the fishery products from catches made in zones within the national jurisdiction of the CARIFORUM states, with a view to arriving at a solution satisfactory to both sides. This examination shall take place in the Special Committee on Customs Cooperation and Trade Facilitation.

JOINT DECLARATION RELATING TO PROTOCOL I CONCERNING THE PRINCIPALITY OF ANDORRA AND THE REPUBLIC OF SAN MARINO

1. Products originating in the Principality of Andorra, meeting the conditions of Article 3(3)(b) of Protocol I, and falling within Chapters 25 to 97 of the Harmonised System, shall be accepted by the Parties as originating in the European Union within the meaning of this Agreement.

2. Products originating in the Republic of San Marino, meeting the conditions of Article 3(3)(b) of Protocol I, shall be accepted by the Parties as originating in the European Union within the meaning of this Agreement.

3. Protocol I shall apply *mutatis mutandis* for the purpose of defining the originating status of the abovementioned products.

JOINT DECLARATION ON THE SIGNING OF THE ECONOMIC PARTNERSHIP AGREEMENT

The Parties acknowledge that the signature of the Agreement signals the changing dynamics of the global economy as well as the continuing importance of our cooperation to the realisation of the development objectives of the CARIFORUM States.

As we affix our signature to the Agreement, we emphasise that it must be supportive of the development objectives, policies and priorities of the CARIFORUM States, not only in its structure and content, but also in the manner and spirit of its implementation.

To that end and as indicated in Article 4 of the Agreement, its implementation will pay due regard to the integration processes in CARIFORUM, including the aims and objectives of the CARICOM Single Market and Economy as outlined in the Revised Treaty of Chaguaramas. In such implementation, special consideration will be given to reinforcing the regional integration schemes of the CARIFORUM States and ensuring their further sustainable advancement.

We declare our commitment to work closely, within the institutions of the Agreement, to achieve its aims and objectives taking special account of the different levels of development among our countries, notably the needs of the small vulnerable economies, including, in particular, Haiti as a Least Developed Country, as well as those designated as less developed under The Revised Treaty of Chaguaramas.

1502—Continued

We understand that, in the context of our continued monitoring of the Agreement within its institutions, as provided for under Article 5 of the Agreement, a comprehensive review of the Agreement shall be undertaken not later than five (5) years after the date of signature and at subsequent five-yearly intervals, in order to determine the impact of the Agreement, including the costs and consequences of implementation and we undertake to amend its provisions and adjust their application as necessary.

JOINT DECLARATION ON POLITICAL DIALOGUE, CONSULTATIONS AND APPROPRIATE MEASURES

1. The Parties agree to support regular engagement in comprehensive, balanced and deep political dialogue to facilitate their shared agendas.

2. If the United Kingdom or a Signatory CARIFORUM State considers the other to be failing to fulfil an obligation stemming from:

(a) respect for the Essential Elements of this Agreement;
(b) full compliance with and national implementation of existing obligations under international disarmament and non-proliferation treaties and agreements and other relevant international obligations; or
(c) respect for the Fundamental Element of this Agreement,

they shall attempt to address this as part of regular political dialogue.

3. Except in cases of special urgency, all possible options for political dialogue on respect for human rights, democratic principles and the rule of law shall be exhausted prior to the commencement of the consultations referred to in paragraph 5 of this Joint Declaration.

4. In a case where the matter is not resolved by regular political dialogue and that matter concerns either:

(a) a failure to fulfil an obligation stemming from the principles referred to in subparagraphs 2(a) or 2(b); or
(b) serious cases of corruption when the United Kingdom is a significant partner in terms of financial support to economic and sectoral programmes,

the procedures set out in paragraphs 5 to 8 shall apply.

5. (a) In a case covered by subparagraph 4(a), the United Kingdom and the Signatory CARIFORUM State agree, except in cases of special urgency, to share information required for examining the situation and, if necessary, hold consultations focused on measures to remedy the situation.

(b) In a case covered by subparagraph 4(b), the United Kingdom and the Signatory CARIFORUM State may hold consultations focused on measures to remedy the situation.

6. The consultations specified in paragraph 5 shall begin within 30 days of any invitation to hold them, and shall continue for a period established by mutual agreement, though lasting no longer than 120 days.

7. If the consultations do not lead to an acceptable solution for both the United Kingdom and the Signatory CARIFORUM State, if consultations are refused, or in cases of special urgency, appropriate measures may be taken. These measures shall be revoked as soon as the reasons for taking them no longer prevail.

8. (a) The term "cases of special urgency" shall refer to exceptional cases of particularly serious and flagrant violation of one of the principles referred to in subparagraphs 2(a) or 2(b), that require an immediate reaction.

(b) The "appropriate measures" referred to in this Joint Declaration are measures taken in accordance with international law, and proportional to the violation. In the selection of these measures, priority shall be given to those which least disrupt the application of the Agreement. It is understood that suspension of the Agreement would be a measure of last resort.

9. If the United Kingdom or a Signatory CARIFORUM State takes measures in cases of special urgency, it shall immediately notify to the other these measures. At the request of the United Kingdom or that Signatory CARIFORUM State , consultations may then be called in order to examine the situation thoroughly and, if possible, find solutions. These consultations shall be conducted in accordance with paragraph 6.

JOINT STATEMENT ON TRADE BETWEEN THE UNITED KINGDOM AND CARIFORUM STATES

The Honourable Minister responsible for Trade in the United Kingdom and Honourable Ministers of CARIFORUM States met in Rodney Bay, Gros Islet, Saint Lucia, on the twenty second day of March in the year two thousand and nineteen.

The Honourable Ministers signed the Agreement which ensures that the Parties maintain the existing market access between the United Kingdom and CARIFORUM States, by replicating the effects of the existing CARIFORUM-EU EPA through its rollover into this Agreement. The Agreement facilitates trade between the United Kingdom and CARIFORUM States under the same terms which apply to trade between the United Kingdom and CARIFORUM States under the CARIFORUM-EU EPA. This ensures continuity of trade relations between the United Kingdom and CARIFORUM States once the CARIFORUM-EU EPA ceases to apply to the United Kingdom.

We set out our shared understanding that trade is a key driver of sustainable development and noted that the Agreement will play a significant role in supporting economic growth in the Caribbean and in promoting regional integration, economic cooperation and poverty reduction. We agreed that development cooperation will be important in maximising the benefits of this Agreement.

The United Kingdom and CARIFORUM States committed to prompt ratification of the Agreement to allow it to enter into force and ensure that the mutual benefits and opportunities enabled by the Agreement are fully realised.

We agreed to review the joint institutions of the Agreement at the earliest opportunity through the mechanisms set out in the Agreement. This reflects the shared ambition of the United Kingdom and CARIFORUM States to have a set of joint institutions that most effectively supports the implementation of the Agreement.

We acknowledged that domestic regulations, particularly those related to trade in services, can pose market access challenges for services providers and affect the expansion of services exports.

Conscious of the significant contribution of services to the economies of CARIFORUM States and the United Kingdom, we committed to exploring solutions, including through the institutions established under the Agreement, to ensure that our trade and non-trade related regulations do not hinder each other's services exports.

We reaffirmed our shared ambition to further strengthen and deepen our partnership to the benefit of the United Kingdom and CARIFORUM, and our intention to continue to cooperate closely to ensure that the benefits of the Agreement are fully achieved. In this regard, the United Kingdom will complete the design of a new programme that will directly support CARIFORUM States so that they can fully benefit from the opportunities arising from the Agreement. This programme will complement the suite of wide-ranging UK trade and economic development programmes that support CARIFORUM and CARIFORUM States bilaterally, regionally and multilaterally. DECLARATION OF THE CARIFORUM STATES RELATING TO PROTOCOL I ON THE ORIGIN OF FISHERY PRODUCTS FROM THE EXCLUSIVE ECONOMIC ZONE

The CARIFORUM States reaffirm the point of view they expressed throughout the negotiations on rules of origin in respect of fishery products and consequently maintain that following the exercise of their sovereign rights over fishery resources in the waters within their national jurisdiction, including the Exclusive Economic Zone, as defined in the United Nations Convention on the Law of the Sea, all catches effected in those waters obligatorily landed in the ports of the CARIFORUM States for processing should enjoy originating status.
